1.107 about

Ce guide vous montre les listes des fichiers présents sur les CDs de Dream®

C'est dans un moment de je-ne-sais-pas-quoi-faire que cette idée m'est venue.

Les concepteurs du CD prendront peut-être conscience du fait que trouver un fichier sur leurs CDs n'est pas si évident.

Une interface comme il y en a une sur le CD PCTeam serait la bienvenue !!! :-)

Je suis un invétéré amigaïste, Dark Vador Gates ne m'aura pas converti au côté obscur de la force. :)

Je souhaite que les utilisateurs de systèmes non-microsoft se tiennent la main et crient haut et fort que les Windows(95,NT,...) sont des copies de systèmes que Bill Gates a volé à leur propriétaire.

UN CONSEIL A TOUS LES AMIGAISTES: UTILISEZ DOPUS MAGELLAN, C'EST UN REMPLACEMENT DU WORKBENCH NETTEMENT SUPERIEUR A WINDAUBE95 !!!!

Tous les Amigaïstes sont les bienvenus chez moi !!!!!

1.108 aide

Je ne crois pas qu'il y ai besoin d'aide pour utiliser ce guide :)

Petit conseil gratuit: utilisez Powerguide présent sur Aminet en remplacement d'Amigaguide

1.109 free

FREEWARE : quelque chose de gratuit, pas comme sur PC (ouarf)

FREEWARE veut dit que ce fichier est gratuit pour tout le monde

Comme je l'utilise , la mise à jour est continue

Aminet/text/hyper

Si certains pensent que je mérite un petit quelque chose pour

l'avoir fait, ils peuvent m'envoyer un E-Mail sympa (un grab de le WB par ex)

Ou une BMW 525 tds , c'est comme ils veulent :)
