1.6 Help me

If you find a new device, please EMail me at

age@thepentagon.com

or/and tell me the latest versions.

```

~~~~~
      devices                Size                Version   (Date)

      Your correct E-Mail or/and WWW-address:
~~~~~

```

If you dont know the infos about the devices, so send me please an E-Mail with the -> uucoded Lha-File <- of this devices. So I can include the information with your name in the next release of this guide.

- Great thanks -

1.7 What I used?

Roger Hågensen - "DVC" V2.6 - check the version and update any kind of file
 - Aminet - util/sys/DVC.lha

Amiga Technologies - "C:Version xxx.device file full"

Heiko Schröder - "DTypeLha" (an ARexx-script to extract .datatype-files of an .lha-file, full automagically)
 - not released

Heiko Schröder - "SearchIn»Device.guide«" to release the "New.guide" and the "Update.guide"
 - released with this Guide

1.8 DVC tells me strange version strings...

Devices check

If the "Devices check" find a device on your system thats more actually than in DevGuide, so send me please the relevant information with the actual size...

Did you get version informations from DVC like this?

```

midi.device                1988.0

```

If you get version informations higher than V100.0, please control the version of the device with c:version.

```
1.Shell:> version xxxx.device full
```

If the result is e.g.: 2.-1 or 3.-1 then read the words from Roger Hågensen:

```
>DVC has some problems with version checking by several libraries.
>I've attached some examples. I hope you can change this little. I know,
>that it is a big problem with the different version strings. :-)
```

```
"Some authors do not follow the standard way of making a idstring,
thus those files do not show reliable version info.
Those files that have a correct however, should always be correct.
But sadly it is impossible for anyone to know if a file has
a good or bad version info, and we don't want to use more time
on such messy things, complain to the authors of the files,
it is their loss if they don't have a correct version/idstring..."
```

```
BTW: Did you find in DevGuide devices with a size of "0"?
      I would be grateful if you can tell
            me
            the size of
            this actually devices.
```

He is the author of DVC.

Roger, thanks for the ability to distribute it with DTypeGuide.
Dear reader of this guide, So you are be able to check your
datatypes easily.

Please respect the hard work of Roger and download the complete
DVC archiv from Aminet - util/misc/DVC.lha
DVC 2.6 can handle device/-Handler files also, like those in
DEVS: and L: and also Libraries etc.
Here you can get some information.
