### 1.1 Pictures index by directory

The pictures on Aminet CD 29

There are two ways to view the images on this CD. First, there is a database of thumbnail images that you can click to see the full size versions: PicZoo . Just pick 'Open' in the File menu and select the database you are interested in. AGA is recommended for this program but not required; you can change the screen mode to any HAM mode in the Preferences menu. See the documentation .

The other approach is to read the descriptions of the images (and anims) and click the ones that sound interesting for immediate viewing. Please select the subdirectory that interests you.
