### 1.2 Introduction

© 1999 Quest Technologies/Bedlam Enterprises

I N T R O D U C T I O N

Welcome to the Fifth Issue of CoNnEcTiOnS!!! CoNnEcTiOnS is a Monthly UK BBS Scene Magazine containing a comprehensive UK BBS Directory.

Many SysOps have tried their hands at generating up-to-date BBS Lists, but most have found them too difficult to maintain and have abandoned updating them, with the exception of the odd few, like Turbo D at

Alpha Zone BBS

who has for the last 8 months supplied a list of BBS Numbers to ←  
the AMINET.

However, most BBS Lists contain BBS Numbers of BBSes that have long since left the scene, and of all the Lists we have encountered, there hasn't been one that has been accurately up-to-date.

At the time of going to press, ALL the BBSes listed in CoNnEcTiOnS have been 100% verified as being online. We have spent the last 6 months ringing BBS Numbers to find out which BBSes are still online, and to find out those that have left the scene. We have still a lot of work to do, but I'm sure you can appreciate the cost of dialling every BBS Number we have found in the afore mentioned BBS Lists, and that is why we need YOUR help in providing us with information of any BBSes you know that are still online, that are not listed in this Issue of CoNnEcTiOnS.

Furthermore, we need YOUR help in keeping CoNnEcTiOnS up-to-date with BBS Closures, New Numbers, Relaunches, Renames etc. For more details on how to contact us, access

.

The BBS Scene is in bad need of positive publicity...and we at CoNnEcTiOnS strongly believe that BBS Advertising is a damn good start. CoNnEcTiOnS aims to provide the AMIGA Community with a central resource of information regarding the current status of the UK BBS Scene, with the added bonus of a comprehensive UK BBS Directory every month.

When we first researched for CoNnEcTiOnS to find out just how many BBSes were still up and running, we were pleasantly suprised by the number we found were still online, and those 124 BBSes we found, were entered into the First Issue of CoNnEcTiOnS. That 124 BBSes has now grown to 197 BBSes for the Fifth Issue of CoNnEcTiOnS, just proving that the UK BBS Scene is far from dead, as was first thought.

From our point of view, CoNnEcTiOnS has really made a difference to the number of Calls and New Users at our respective BBSes, and many of our New Users had never been on a BBS before in their lives, the Internet, yes, but never a BBS, as they thought that BBSes were extinct. Feedback from other SysOps who advertised in CoNnEcTiOnS suggests that they have experienced the same result, which proves a point, that SysOps should not just sit back and accept the number of Users in their User-Base, but should advertise their BBSes as much as possible, CoNnEcTiOnS giving them that very chance.

AMIGA FORMAT Magazine recently started a column for BBS Numbers in their Readers Adverts section, and those that have advertised, including ourselves, have found that advertising DOES work, and that there ARE members of the AMIGA Community who want to call BBSes, but never knew where to get in contact with them! Therefore in respect of all you SysOps

---

that think that advertising is a waste of time...we rest our case!!!

The Internet has done much damage to the UK BBS Scene, especially when Free ISPs were launched, but that damage is not irreparable, as we have proven, and ironically CoNnEcTiOnS has used the Internet to get to it's prospective audience, to get Internet Users back to the UK BBS Scene, and it appears to have worked, and worked well.

CoNnEcTiOnS has been well received from SysOps and BBS Users alike, and the Correspondence we have received from Readers has been tremendous. We honestly didn't believe that CoNnEcTiOnS would be so popular, and its thanks to your input and feedback that CoNnEcTiOnS has established itself as the leading UK BBS Scene Magazine after only it's Fourth Issue!!!

Plans to take CoNnEcTiOnS' coverage beyond the United Kingdom are already under consideration. Work on GLOBAL CoNnEcTiOnS has already started, but we foresee a problem that really needs to be addressed before we continue any further with the project. Basically, does the UK BBS Scene really want an International BBS Directory? If the answer to this questions is "Yes", then how do we market it? Do we release it seperately, to give YOU the choice whether you want to Download it or not, or do we include it within CoNnEcTiOnS, bearing in mind the Archive Size will probably double?

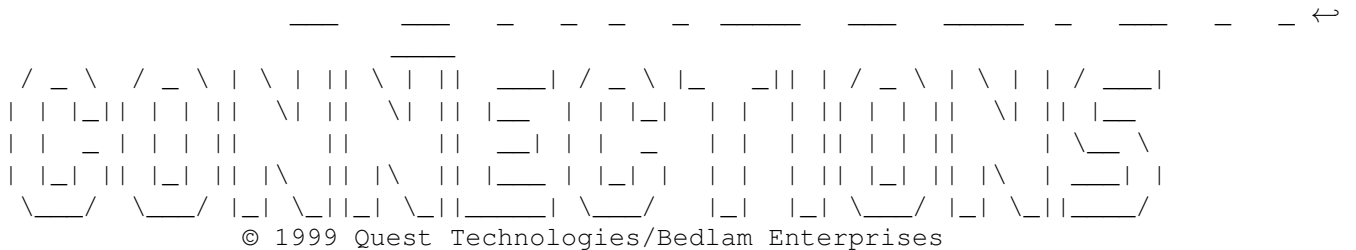

Please help us to make this decision, get in touch with us at CoNnEcTiOnS, and let us know what YOU want. If we get no response from YOU, as Readers of CoNnEcTiOnS, then the GLOBAL CoNnEcTiOnS project will be scrapped!!!

Please keep the Correspondence coming, we would especially like to hear from SysOps who have advertised their BBSes in CoNnEcTiOnS, and have benefitted as a result. Also, if any of you have any ideas on how we can improve the content of CoNnEcTiOnS, or if you have anything at all to contribute to CoNnEcTiOnS, then please get in touch, even if you only have a sentence or two to say, ALL Correspondence will be read and replied to, and may even get included in the Next Issue of CoNnEcTiOnS!

See you Next Issue...

## \*NEW\* CoNnEcTiOnS HTML Version

CoNnEcTiOnS is now available in HTML Format. Shortly after completing the June Issue of CoNnEcTiOnS, we found an AmigaGuide to HTML Convertor on the AMINET, although not perfect, it was enough to point us in the right direction to create a fully-functioning HTML Version of CoNnEcTiOnS. After uploading this to the AMINET, we found that PC Users, using Microsoft's Internet Explorer, couldn't read it properly, due to an incorrect Background Colour command. Apparently the PC's Web-Browsers default to a White Background, whereas the AMIGA Web-Browsers default to a Grey Background, which made the White Text in CoNnEcTiOnS disappear into the Background on the PC!!! This now has been corrected, and the HTML Version of CoNnEcTiOnS now works fine on the PC. The PC Text-File Version of CoNnEcTiOnS has now been dropped, as the HTML Version of CoNnEcTiOnS is the nearest we can get to a PC Executable of CoNnEcTiOnS, giving the PC User the chance to read CoNnEcTiOnS as we originally intended it to be read. The HTML Version of CoNnEcTiOnS will be available, along with the AmigaGuide Version, every month from the AMINET in DOCS/LISTS/.

## \*NEW\* Official CoNnEcTiOnS Web-Sites

Saturday 5th June saw the launch of the First Official CoNnEcTiOnS Web-Site hosted by Dave Clarke. Using the HTML Version of CoNnEcTiOnS, Dave managed to put CoNnEcTiOnS online on HIS own home-page on the Internet, instantly providing CoNnEcTiOnS with another resource, where it could be seen and read. Dave was also behind the discovery of the Microsoft Internet Explorer problem, mentioned above, and therefore has been essential in the success of the HTML Version of CoNnEcTiOnS. The URL Address for this First Official CoNnEcTiOnS Web-Site is:-

<http://home.freeuk.net/davecl>

Monday 21st June saw the launch of the Second Official CoNnEcTiOnS Web-Site hosted by Paul Green (Ex-SysOp Of The Borg Homeworld BBS). Paul, who now runs his own Computer Business (TBH Systems), has joined Dave Clarke, and added the HTML Version of CoNnEcTiOnS to HIS own home-page on the Internet. The URL Address for this Second Official CoNnEcTiOnS Web-Site is:-

<http://www.tbhsystems.co.uk/connections>

At this moment in time, neither CoNnEcTiOnS Web-Site has the facility for you to Download CoNnEcTiOnS, but by the time you read this, hopefully, that will have been sorted, and both Web-Sites will carry archived copies of the current CoNnEcTiOnS Issue, in both AmigaGuide and HTML Versions. Anyone else wanting to host an Official CoNnEcTiOnS Web-Site, should get in touch with CoNnEcTiOnS at the usual E-Mail Addresses,

Quest BBS  
or  
Bedlam BBS

.

CoNnEcTiOnS AMIGA FORMAT Special-Edition

CoNnEcTiOnS delivered the AMIGA FORMAT Special-Edition of CoNnEcTiOnS, mentioned last Issue, to Ben Vost (Editor Of AMIGA FORMAT Magazine) on Monday 14th June. The AMIGA FORMAT Special-Edition of CoNnEcTiOnS should appear on the September Issue Cover-Mounted CD-ROM of AMIGA FORMAT Magazine, and further Issues of CoNnEcTiOnS, at the request of Ben Vost, are to be sent monthly to AMIGA FORMAT Magazine, for inclusion on future AF CD-ROMs. AMIGA FORMAT Magazine has a reader-ship of over 14600, giving CoNnEcTiOnS yet an even wider audience than it already receives through the AMINET, the AMINET CD-ROMs (CoNnEcTiOnS is currently available on AMINET CDs 30 and 31), UK BBSes, and the Internet via our \*NEW\* Official CoNnEcTiOnS Web-Sites.

CoNnEcTiOnS At The World Of Amiga Show 1999

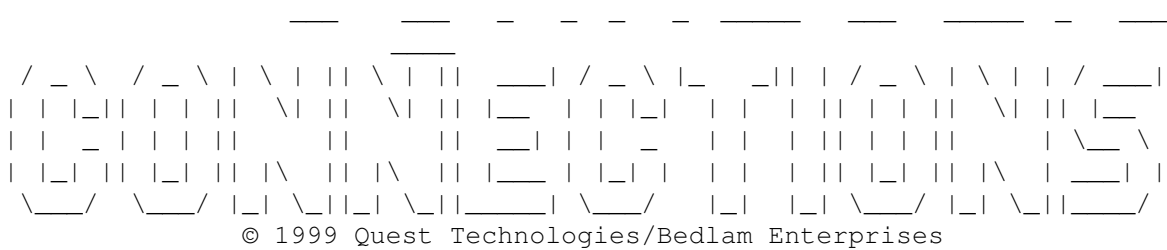

Further to last Issue, CoNnEcTiOnS should be making an appearance at the World Of Amiga Show 1999, at Kensington Town Hall Conference Centre, on Saturday 24th July. Arrangements have not been made for definite at this moment in time, but it is hoped that CoNnEcTiOnS will be able to attend, sporting the \*NEW\* CoNnEcTiOnS T-Shirt, so look out for us, and don't forget to say "Hello" if you see us there. Assuming CoNnEcTiOnS can attend, we will have a full-report on the World Of Amiga Show 1999 next Issue.

Next Issue

The Next Issue of CoNnEcTiOnS will be launched SUNDAY 1ST AUGUST and will be available from

- Quest BBS
- ,
- Bedlam BBS
- , and the AMINET in DOCS/LISTS/.

1.4 Editorial

E D I T O R I A L

Welcome to Issue Five of CoNnEcTiOnS. Each month CoNnEcTiOnS gets bigger and better, thanks to CoNnEcTiOnS Readers who take the time to contribute Articles and Correspondence. This Issue of CoNnEcTiOnS, is a little later than anticipated, due to the fact that CoNnEcTiOnS has been very busy this month. Not only have we delivered the \*EXCLUSIVE\* CoNnEcTiOnS AMIGA FORMAT Special-Edition to AMIGA FORMAT Magazine, but we have created a \*NEW\* HTML Version of CoNnEcTiOnS, which ultimately lead to the launch of two Official CoNnEcTiOnS Web-Sites this month, operated by CoNnEcTiOnS Readers, Dave Clarke and Paul Green. Thankyou guys!!!

The fact that CoNnEcTiOnS Readers have approached CoNnEcTiOnS, volunteering to host an Official CoNnEcTiOnS Web-Site, is indisputable proof, that the popularity of CoNnEcTiOnS is on the increase, something that SysOps should seriously consider, if they haven't yet registered their BBSes with us here, at CoNnEcTiOnS!!!

This Issue of CoNnEcTiOnS features more Scottish BBSes, thanks to Steven Winetrobe (SysOp Of

SoD BBS Blantyre  
) , who provided CoNnEcTiOnS with

details of many Scottish BBSes, that were still serving the UK BBS Scene. The fact that we haven't discovered these long-time BBSes until now, leads us to believe that there are still many BBSes out there in the UK, which as yet, do not appear in CoNnEcTiOnS. This is where we need YOUR help!!! We need to know from SysOps and BBS Users alike, about any BBSes you either operate or frequent, that aren't listed in this Issue of CoNnEcTiOnS.

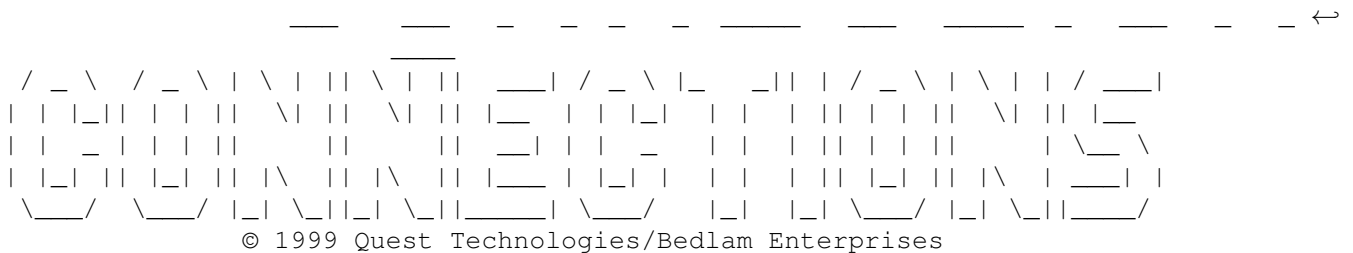

Remember, CoNnEcTiOnS is getting wide-spread coverage, and that wide-spread coverage is helping to increase the popularity of CoNnEcTiOnS, and that can only be good news for the current UK BBS Scene. We especially would like more information on Welsh & Irish BBSes, as CoNnEcTiOnS appears to present a very bleak picture on the UK BBS Scene in these areas, so if YOU can help put the record straight, then please, please, please get in touch ASAP!!!

Last, but not least, CoNnEcTiOnS would like to yet again thank AMIGA FORMAT Magazine, in particular Ben Vost (Editor Of AMIGA FORMAT Magazine), for his continual support for the UK BBS Scene. With CoNnEcTiOnS now being delivered to AMIGA FORMAT Magazine every month, for inclusion on their Cover-Mounted CD-ROMs, CoNnEcTiOnS hopes that this new distribution will reap rewards for AMIGA FORMAT Magazine, just as much as CoNnEcTiOnS, and ultimately breathe new life into the UK BBS Scene, something that we at CoNnEcTiOnS set out to do from the very first Issue!!!

See you Next Issue...

Dunkie (SysOp Of  
Quest BBS  
)

### 1.5 Articles

Here's a short summary of features. There is a hell of a lot more than this, to list them all would take forever.

- o 100% System Friendly -- No dodgy serial/audio hacks a la MAX's.
  - o Uses standard WB2.04+ interface.
  - o Automatically uses WB3.0+ features when running on WB3.0+ to make things run faster and look nicer.
  - o 99% MAX's Compatible.
  - o The XPR standard is supported. You can select which XPRs to use.
  - o The core of Atlantis is held in a library, which allows it to run faster and be updated more easily.
  - o No clock -- Yes, thats a feature :)
  - o Unlimited Nodes.
  - o Upto 255 MAX's/Paragon compatible doors, and an unlimited number of Atlantis compatible doors running \*at the same time\*.
  - o Door port numbers are seperate to the node number, which means you can run a door on node 9867 with no problems.
  - o File and Message bases are external, and can be completely customized.
  - o The filebase is based on MagicFile. You can do file stuff in the same way as MAX's too, if your a massachist.
  - o The message base looks and feels like a desktop mailer package, and allows a similar degree of customization for users. You can do mail stuff in the same way as MAX's too, if your a massachist.
  - o Full Internet support. This includes BBS-based versions of the WWW, FTP, and more. Also, some popular Internet servers are provided also.
  - o Full Fido style mail network support.
  - o BBS can be spawned from TrapDoor or Telnet, as well as standard Modem connections.
  - o Full Internet EMail support (clients AND servers).
  - o TrapDoor support.
  - o OPTIONAL Conference support.
  - o Official Support BBS for when you get stuck.
  - o Good programmers docs -- Everything is documented, no more hacking!
  - o Everything you will ever need to program anything for Atlantis is accessible through the core library.
-

## Files & Transfer

One of the most popular area of all BBSes are the directories of Software, Downloadable by using one of several methods of transferring Files. The most efficient method is ZMODEM, its one of most reliable ones, as all Data is subject to rigorous checksums. XMODEM is designed to transfer binary (8-bit) Files. Advanced Systems do transmit the full 8-Byte, and therefore support ZMODEM. Some even support other File transfer protocols, such as YMODEM-Batch and Kermit, but in addition to supporting binary transfers, both can transfer Filenames aswell. This way you can Download 20 or more Files with one simple command, and the transfer does the rest.

## Doors

These are used by the Software, making the BBS better. There are many around and every BBS usually carries a large list of what's available - Doors can be Games, Utilities etc. There are also Doors for adding CD-ROMs to the BBS, making the BBS Filebase grow. Some Doors require Key-Files and will not function without them such as LSD and NSA Doors for MAX's BBS :(

## Games

Games are run in the same way as Doors, but that depends on the Door functions! The first ever Game was the Multi-User Dungeon (MUD) and lived Essex University's mainframe. There are now hundreds of Doors available, and thanks to coders like Marty (SysOp Of Gremlins BBS) and C Wilson (SysOp Of Amiga Phoenix BBS), Doors have got much better :)

## Mail Networks

The BBS can be connected to Mail Networks via Hubs, Points, and Nodes. These are names given to the different types of mail distributors. Hubs are the main distributor for Mail Networks. Examples of current Mail Networks are FidoNet, FluffyNet and PowerNet.

Last words from Mik (SysOp Of Promised Land BBS)

I run the

Promised Land BBS

using MAX's Professional 2.08. I carry both

FluffyNet and PowerNet Mail Networks. I will give my support to anyone wishing to start a BBS. I've got a fully-working \*FREE\* Beginner's BBS, already configured, for any Caller that wants to start their own BBS. You can Download the \*FREE\* Information from

Promised Land BBS

, all YOU need to

do is fill the Information in, and return it, I will do the ANSIs for you.

Finally, I would like to thank the following people for their help and support since I started

Promised Land BBS

:-

Steve Clack, Ben Dover, Dunkie, Pete Laird, Leon, Marty, Niki Murkett, Ninja, Timm Rutland, S.N.S, and anyone else I've missed!!!

Mik (SysOp Of

Promised Land BBS

"I have had a few callers mention CoNnEcTiOnS, and I am most grateful to you for mentioning my BBS in CoNnEcTiOnS. I too believe in advertising. At local Computer Fairs, I hand out well over 500 Leaflets advertising my BBS, and even a few local Computer Shops have taken Posters from me advertising my BBS. One of the Scottish Colleges now uses my BBS to teach Students how to use Computer Communications other than the Internet, so advertising does bring rewards, if you are prepared to make the effort. Let me know if there is anything I can do to further the cause up here, I'm always glad to promote the use of the BBS."

Editors Comment:-

Excellent news m8...people could do no better than follow your example m8!!! This Correspondence could well be the most inspiring of all Correspondence, that CoNnEcTiOnS has ever received, in that you are the only SysOp we've heard from that actually has integrated his BBS into the Computer Education System...well done m8!!! Further to this, the idea of advertising in Local Computer Shops and Computer Fairs, is an excellent idea m8, and something even we at CoNnEcTiOnS had never thought of, so you can bet your life we're going to have a go at advertising in OUR Local Computer Shops too!!!

"Please can you ditch that 42K JPEG!!! If you really must have it, at least shrink it down to no more than 12K. 42K is ridiculous, and it doubles the CoNnEcTiOnS archive size!!!"

Tom Bampton (West Sussex)

Editors Comment:-

Point taken m8...QUESTBBS.JPG is included in the CoNnEcTiOnS archive, to advertise CoNnEcTiOnS Headquarters. Yes...it does double the CoNnEcTiOnS archive size, and therefore from this Issue, QUESTBBS.JPG has been dropped. This will not only reduce the CoNnEcTiOnS archive size for Downloading, but also will make it easier to distribute CoNnEcTiOnS through Mail Networks.

"Just been checking out CoNnEcTiOnS on the Internet, and it's smart!!! It's nice to look at, and very easy to use, with only one slight criticism :( After reading a few pages of CoNnEcTiOnS, it became slightly monotonous having to scroll back to the top of the page to press continue. How about a nice little continue button at the bottom of each page?"

You aren't the only CoNnEcTiOnS Reader to have mentioned this m8...and yes, from this Issue, the HTML Version of CoNnEcTiOnS WILL have Navigation Buttons both at the top and bottom of every page. Thanks for the feedback. Without feedback, positive or negative, CoNnEcTiOnS has no idea whether it's delivering the kind of product that YOU, the CoNnEcTiOnS Reader, wants to read. So...if you are a CoNnEcTiOnS Reader who wants to voice your opinion in CoNnEcTiOnS, get in touch with us here at the usual E-Mail Addresses,

- \* The leading BBS in South Wales - maybe?
- \* Loads of files
- \* Loads of ~adult~ files too ;-)
- \* Just to prove I'm a sad git there's loads of USA/Canadian railroad pics!
- \* Stacks of on-line games including Galaxy5, DogWorld, Lord II etc..
- \* Inter BBS LORD with THREE leagues
- \* 13 mail networks!!!!
- \* More message areas than you can shake a stick at
- \* BlueWave and QWK mail doors
- \* Home of the WIBBLE BBS locator
- \* Home of CBSOFT software -

RA + PB utils / FD utils / T-Mail utils / GALAXY5 addons etc.....  
 \* Over 5.5Gb of hard drive space dedicated to the BBS plus the occasional  
 CD when I can remember to put it on-line :-/  
 \* Points available in all networks carried

Why not give it a try?

Ring 01443 400327 now - the BBS is 24 hours, 33600, 365 days a year :-D

Moonlight BBS offers a large collection of files in over 40 subject areas. Unlimited downloads (no ratios) for registered & validated callers. New files are added frequently from recent Aminet uploads. The BBS caters mainly for the 'serious' caller who wants useful files: but we have a small stock of games, pictures & animations, music files. Newcomers to the 'comms' scene are given help and advice. There are a number of 'help text' files available for download.

#### Special features

-----  
Bulletins (Information and help texts.)  
Online game ('Hack & Slash'), 'Trivial Pursuit' type quiz.
