### 1.2 Introduction

© 1999 Quest Technologies/Bedlam Enterprises

I N T R O D U C T I O N

Welcome to the Fourth Issue of CoNnEcTiOnS!!! CoNnEcTiOnS is a Monthly UK BBS Scene Magazine containing a comprehensive UK BBS Directory.

Many SysOps have tried their hands at generating up-to-date BBS Lists, but most have found them too difficult to maintain and have abandoned updating them, with the exception of the odd few, like Turbo D at

Alpha Zone BBS

who has for the last 7 months supplied a list of BBS Numbers to ←  
the AMINET.

However, most BBS Lists contain BBS Numbers of BBSes that have long since left the scene, and of all the Lists we have encountered, there hasn't been one that has been accurately up-to-date.

At the time of going to press, ALL the BBSes listed in CoNnEcTiOnS have been 100% verified as being online. We have spent the last 5 months ringing BBS Numbers to find out which BBSes are still online, and to find out those that have left the scene. We have still a lot of work to do, but I'm sure you can appreciate the cost of dialling every BBS Number we have found in the afore mentioned BBS Lists, and that is why we need YOUR help in providing us with information of any BBSes you know that are still online, that are not listed in this issue of CoNnEcTiOnS.

Furthermore, we need YOUR help in keeping CoNnEcTiOnS up-to-date with BBS Closures, New Numbers, Relaunches, Renames etc. For more details on how to contact us, access

.

The BBS Scene is in bad need of positive publicity...and we at CoNnEcTiOnS strongly believe that BBS Advertising is a damn good start. CoNnEcTiOnS aims to provide the AMIGA Community with a central resource of information regarding the current status of the UK BBS Scene, with the added bonus of a comprehensive UK BBS Directory every month.

When we first researched for CoNnEcTiOnS to find out just how many BBSes were still up and running, we were pleasantly suprised by the number we found were still online, and those 124 BBSes we found, were entered into the First Issue of CoNnEcTiOnS. That 124 BBSes has now grown to 191 BBSes for the Fourth Issue of CoNnEcTiOnS, just proving that the UK BBS Scene is far from dead, as was first thought.

From our point of view, CoNnEcTiOnS has really made a difference to the number of Calls and New Users at our respective BBSes, and many of our New Users had never been on a BBS before in their lives, the Internet, yes, but never a BBS, as they thought that BBSes were extinct. Feedback from other SysOps who advertised in CoNnEcTiOnS suggests that they have experienced the same result, which proves a point, that SysOps should not just sit back and accept the number of Users in their User-Base, but should advertise their BBSes as much as possible, CoNnEcTiOnS giving them that very chance.

AMIGA FORMAT Magazine recently started a column for BBS Numbers in their Readers Adverts section, and those that have advertised, including ourselves, have found that advertising DOES work, and that there ARE members of the AMIGA Community who want to call BBSes, but never knew where to get in contact with them! Therefore in respect of all you SysOps

---

that think that advertising is a waste of time...we rest our case!!!

The Internet has done much damage to the UK BBS Scene, especially when Free ISPs were launched, but that damage is not irreparable, as we have proven, and ironically CoNnEcTiOnS has used the Internet to get to it's prospective audience, to get Internet Users back to the UK BBS Scene, and it appears to have worked, and worked well.

CoNnEcTiOnS has been well received from SysOps and BBS Users alike, and the Correspondence we have received from Readers has been tremendous. We honestly didn't believe that CoNnEcTiOnS would be so popular, and its thanks to your input and feedback that CoNnEcTiOnS has established itself as the leading UK BBS Scene Magazine after only it's Third Issue!!!

Plans to take CoNnEcTiOnS' coverage beyond the United Kingdom are already under consideration. Work on GLOBAL CoNnEcTiOnS has already started, but we foresee a problem that really needs to be addressed before we continue any further with the project. Basically, does the UK BBS Scene really want an International BBS Directory? If the answer to this questions is "Yes", then how do we market it? Do we release it seperately, to give YOU the choice whether you want to Download it or not, or do we include it within CoNnEcTiOnS, bearing in mind the Archive Size will probably double?

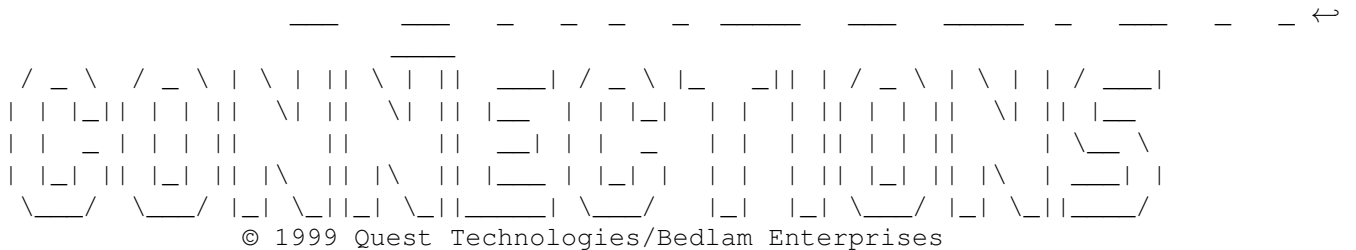

Please help us to make this decision, get in touch with us at CoNnEcTiOnS, and let us know what YOU want. If we get no response from YOU, as Readers of CoNnEcTiOnS, then the GLOBAL CoNnEcTiOnS project will be scrapped!!!

Please keep the Correspondence coming, we would especially like to hear from SysOps who have advertised their BBSes in CoNnEcTiOnS, and have benefitted as a result. Also, if any of you have any ideas on how we can improve the content of CoNnEcTiOnS, or if you have anything at all to contribute to CoNnEcTiOnS, then please get in touch, even if you only have a sentence or two to say, ALL Correspondence will be read and replied to, and may even get included in the Next Issue of CoNnEcTiOnS!

See you Next Issue...

## \*NEW\* CoNnEcTiOnS E-Mail Address (Again!!!)

Due to the Microsoft Network altering it's Hotmail Web-Based E-Mail Service to support their latest Internet Explorer Software, it has become almost impossible for us to collect E-Mail from "www.hotmail.com", as the current AMIGA Web-Browsers do not support JavaScript. As a result of this we have changed the "questbbs@hotmail.com" E-Mail Account to the following:-

questbbs@freenet.co.uk

Please forward any correspondence to this \*NEW\* E-Mail Address as we cannot guarantee that we will be able to collect any correspondence sent to the "questbbs@hotmail.com" E-Mail Account. We can assure you that we will not be changing the CoNnEcTiOnS E-Mail Account again, unless any major problems are encountered in the near future with FreeNet's Mail Server.

E D I T O R I A L

Welcome to another \*NEW-LOOK\* CoNnEcTiOnS. WOW...what an Issue this is!!! The Largest Issue of CoNnEcTiOnS to date, thanks to a flood of Submissions from YOU the Readers. It seems as though we have got people's attention, that CoNnEcTiOnS isn't going to be another one of those BBS Lists that gets updated for a couple of months, before disappearing into obscurity. Now into Issue 4, CoNnEcTiOnS is here to stay!!! As long as there's a UK BBS Scene, CoNnEcTiOnS will be here to support it!!!

The UK BBS Scene is looking a little more healthier than it was a few months ago, with many new BBSes opening around the UK, far out-weighting those that are closing down. It is these new BBSes that we would like to

draw your attention to. Please support these new BBSes, the UK BBS Scene is in bad need of new SysOps that can add their own unique contribution to the UK BBS Scene, and get the UK BBS Scene thriving once again. Without these fledgling SysOps, and their enthusiasm towards the UK BBS Scene, the current UK BBS Scene would deteriorate even more than it has done in the last few years. CoNnEcTiOnS has heard from two fledgling SysOps who have spent a lot of time and money, building their new BBSes, only to get a handful of Callers in return for their efforts.

Burnley BBS  
and USS Defiant BBS

both need your support, if they are to avoid joining the ever-increasing list of BBS Closures.

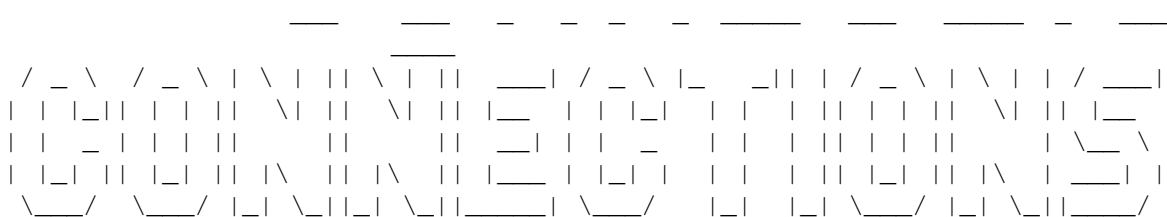

CoNnEcTiOnS would like to thank AMIGA FORMAT Magazine for their invaluable help in keeping the UK BBS Scene alive, by allowing BBSes to advertise freely in their Readers Adverts section. By allowing BBSes to advertise to a potential 14,000+ audience, AMIGA FORMAT has introduced new BBS Users to the UK BBS Scene, people who thought that the Internet was the only place available for AMIGA support. Although we know of many BBSes whose Calls and Users have increased as a result of being advertised in AMIGA FORMAT and CoNnEcTiOnS, we would still like to hear from SysOps who have actually benefitted from advertising through either or both of these two mediums.

CoNnEcTiOnS will be delivering a Special-Edition of CoNnEcTiOnS to AMIGA FORMAT, exclusive to AMIGA FORMAT, as a mark of appreciation for their efforts in helping to maintain the UK BBS Scene. This Special-Edition will be completed before the Next Issue of CoNnEcTiOnS, and will probably appear on the August Issue of AMIGA FORMAT, which will be on sale at their stand at the World Of Amiga Show 1999 at Kensington, London on July 24th and 25th. CoNnEcTiOnS will hopefully be attending the event on July 24th, sporting the \*NEW\* CoNnEcTiOnS T-Shirt. Further details will follow in the Next Issue of CoNnEcTiOnS!!!

See you Next Issue...

Advertise, Advertise & Advertise A Little More - By Danny Corkin

Bulletin Board Systems, what a fascinating thing they are indeed, and this is coming from a veteran BBS User, who is only 15 years old!!!

So, why do the current batch of regulars in the UK enjoy using these Amateur Systems so much? It's quite simple really...a well set-up BBS has a well arranged File area for Users - AMIGA and PC alike - to Download and Upload Files at ease using a simple Terminal Program. A decent BBS must also have connections in the form of National and International Mail Networks, a few Online Games, and last - but most definitely not least - a friendly, dedicated SysOp.

But sadly, the BBS Scene in the UK is deminishing - not the actual amount of Bulletin Board Systems - but the number of Users. I have an good example of this, a great BBS in Lincoln, Most Wanted BBS, closed down about a year ago, after being around for about 5 years. It had a great User-Base of nearly 300 Users, and the vast majority of those Users were Locals. When Most Wanted BBS closed down, it was the turn of

Skull Monkey BBS

to take over

the crown of Lincoln's BBSes, but it seems that hardly any of these former Most Wanted BBS Users have moved over to

Skull Monkey BBS

or the later

appearing Joker's World BBS and The Power House BBS. Where have these Users gone? Surely the Internet, but why can't they come back? The simple fact is that now, in Lincoln, the BBS Scene is in a strange state of affairs, with a new BBS popping up every now and again, but the Users just not being there. So, what the BBS Scene needs to prosper once again in my opinion, is a good Local User-Base.

So I send a message out to all SysOps who genuinely want to bring in Callers: Advertise, Advertise, and Advertise a little more. CoNnEcTiOnS Magazine is an excellent start to this, but in my opinion BBS Advertising MUST go Local, perhaps more importantly than Nationally.

Come on SysOps, for many of you BBSes are your pride and joy, so make all that effort it took you installing all those Doors become worthwhile, and Advertise in your Local Newspaper, a Regional publication - such as Diamond Free-Ads, and this very National Electronic publication, CoNnEcTiOnS. Think for a minute of all that work you put into your BBS, and how many Users you could do with. Advertise your BBS in as many places as humanly possible!!!

Regards

Danny Corkin "Zeus" (Co-SysOp Of The Power House BBS)

First Impressions - By Geoff Hogarth (SysOp Of Ultracomm BBS)

Well first impressions of CoNnEcTiOnS are very good, an up-to-date database of all known BBSes is just what SysOps and BBS Users need.

I hope that the Authors of CoNnEcTiOnS can succeed where others have failed, but to do that means a lot of time researching and a lot of Calls verifying BBSes. Therefore much help is needed from SysOps and BBS Users alike, to pass on information on BBSes operating that are not on the BBS List, and of course any BBSes that are offline.

The Internet has definately done damage to the Dial-Up BBS scene, but having said that, the Internet BBS Scene appears to be thriving. Of course, the main reason people call the Internet BBS as opposed to a Dial-Up BBS at the other end of the country, is the cost of the Call, so a good up-to-date BBS List, like CoNnEcTiOnS, is invaluable if the Dial-Up BBS is to thrive again.

Well done!!!

Geoff Hogarth (SysOp Of  
                   Ultracomm BBS  
                   )

FluffyNET Mail Network - By Steve Clack (SysOp Of Total Eclipse BBS)

A Mail Network is simply a collection of Bulletin Boards that call each other and transfer Messages usually in the middle of the night while most people are blissfully unaware and snoozing in bed. Most people? Well... some people anyway. If you've ever tried to call a BBS and got the message "Sorry, this BBS only accepts Mail Calls at this time!", it probably means you're up bloody late and you should be asleep!!!

You've no doubt sent a message to the SysOp of a BBS before, so you know it's easy to write a message. Well, it's just as easy to send a message to the Users of many Bulletin Boards by writing the message on a Mail Network - if you write a Message to "All", it's quite possible that everyone can see it on every Bulletin Board in the Mail Network.

One of the most popular Mail Networks is FidoNET, and this is what Network Mail was invented for. It started off in the US, thousands of years ago, and only consisted of a few Bulletin Boards, but these days it consists of thousands of Bulletin Boards across international borders - a bit like the Internet.

FluffyNET was originally created by Roger Wilco and Niki Murkett, it evolved from a (now dead) Network called HappyNET. FluffyNET is so-called because of Sheep, but don't let that put you off, that's Niki's mind. Since its humble beginnings it has grown exponentially, and has recovered from a few setbacks...these being various disputes (well, full blown arguments) and Hubs (Bulletin Boards that all the Mail eventually goes back to and back out from again) closing, infact the main FluffyNET Hub has changed 3 times and is now in the hands of me at  
Total Eclipse BBS

The disputes have mostly been settled but that doesn't mean it's not lively! It is growing again after several Bulletin Boards simultaneously quit, they had the impression they could run a Bulletin Board on a Windows based PC!!!

Glen Martin (SysOp Of Gremlins BBS) is responsible for keeping all the Nodelists and information packs up to date, even though his BBS has gone Private now (no idea why), and he regularly sends updates to the AMINET which of course also arrive on FluffyNET Bulletin Boards. Just look out for archives under the names of "FluffyNet.lha" and "Fluffy\_Guide.lha" if you want some more information (on joining or the people on the Network).

Well...here is the current state of affairs, also known as a "Nodelist"...

Have You Hugged Your SysOp Today? - By Ronnie Murphy

What's the Upload thing for? Yeah...well it seems a lot of people just aren't getting the point of a BBS. It is there for those of us who want to share things like Files, Games and HD Installers. But sharing means share and share alike. On most of the Bulletin Boards I have been on, the "U" for Upload flag in the Caller Log is becoming a more and more rare sight.

Quite a few Bulletin Boards no longer use the old ratios which were a constant bugger for leachers amongst us (and I'm including myself here). Now we have the advent of no ratios and people now just leave it up to the SysOp to add Files!!!

I know that it is getting more and more difficult to get AMIGA stuff nowadays, but try checking out the "All Files Linked" Door and see if there isn't something there that you have. Is it Shareware/Freeware? Will it be interesting to others? Yeah? Well what are you waiting for? Hit that "U" Button now!!!

It is up to every member of a Bulletin Board to keep that Bulletin Board running, even drop by and have a chat with the SysOp, after all it is his Bulletin Board you are on!!!

As one Bulletin Board puts it: "HAVE YOU HUGGED YOUR SYSOP TODAY?" Well... HAVE YOU?

"Love CoNnEcTiOnS, it's very comprehensive and very professional. How about creating a CoNnEcTiOnS PC Executable rather than just the Text-File

PC Version?"

Ian Jones "Intruder" (Barnsley, South Yorkshire)

Editors Comment:-

CoNnEcTiOnS is constructed entirely on an AMIGA A1200-030 using CygnusED Professional, and therefore the problem of making a PC Executable of CoNnEcTiOnS arises, as CoNnEcTiOnS does not have access to a PC, and indeed if we had, we probably wouldn't know where to start in making a PC Executable!!! If there are PC Users out there, who read CoNnEcTiOnS, then we openly invite anyone to create a PC Executable, as long as they confirm the project with CoNnEcTiOnS first, as CoNnEcTiOnS IS copyrighted!!! We are currently looking into the possibility of releasing CoNnEcTiOnS in HTML Format, which would mean that CoNnEcTiOnS could be read on any System with an Internet Web-Browser. This is as close as CoNnEcTiOnS can get at this moment in time to a PC Executable.

"Regarding the proposed GLOBAL CoNnEcTiOnS, the International BBS List, I personally think that this is a waste of time for the average BBS User, due to the Call Costs involved. So come on Dunkie and Pete, and put all your efforts into continuing CoNnEcTiOnS!!!

Geoff Hogarth (SysOp Of  
 Ultracomm BBS  
)

Editors Comment:-

The GLOBAL CoNnEcTiOnS project has been shelved indefinitely, due to lack of interest, probably as a result of the reason you mention above. In the meantime, as you suggest, we will be putting all our efforts into bringing you CoNnEcTiOnS every month.

"After seeing the New-Look CoNnEcTiOnS, I just thought I would say that CoNnEcTiOnS is getting bigger and better with each Issue. Keep up the good work!!!"

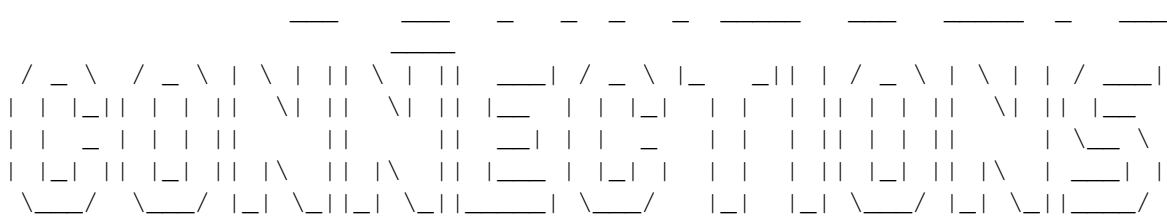

S.N.S (SysOp Of

)

Editors Comment:-

We at CoNnEcTiOnS are always looking at ways to improve CoNnEcTiOnS, and the New-Look was only made possible thanks to your invaluable help, in providing us with a complete set of AmigaGuide Commands last month. This Issue of CoNnEcTiOnS, will certainly not disappoint you, it is by far the

BIGGEST and BEST Issue of CoNnEcTiOnS to date!!! Happy reading!!!

24 Hours

~~~~~

- \* The leading BBS in South Wales - maybe?
- \* Loads of files
- \* Loads of ~adult~ files too ;-)
- \* Just to prove I'm a sad git there's loads of USA/Canadian railroad pics!
- \* Stacks of on-line games including Galaxy5, DogWorld, Lord II etc..
- \* Inter BBS LORD with THREE leagues
- \* 13 mail networks!!!!
- \* More message areas than you can shake a stick at
- \* BlueWave and QWK mail doors
- \* Home of the WIBBLE BBS locator
- \* Home of CBSOft software -  
RA + PB utils / FD utils / T-Mail utils / GALAXY5 addons etc.....
- \* Over 5.5Gb of hard drive space dedicated to the BBS plus the occasional CD when I can remember to put it on-line :-/
- \* Points available in all networks carried

Why not give it a try?

Ring 01443 400327 now - the BBS is 24 hours, 33600, 365 days a year :-D

#### \*FILES\*

14 Online CDs, basically the last 14 Aminets. Frost Free also regularly downloads the latest Aminet files direct to disk for BBS download and Freq.

#### \*FREQS\*

All files on the BBS and CDs are available for Freq.

Freq FILES for the Disk based Filelist or AMINET<Number> for the CD File Lists, e.g AMINET23

#### \*MAIL\*

Fidonet - Amiganet - Landnet - Vibezenet - Studentnet - Fluffynet.

Any echo, no matter how obscure is available. Mail can be read online or via Fido Software.

Point applications are welcome from old and new.

E-Mail addresses are available to BBS Users and Fido Users.

Mail is available via Email to Nodes and Points.

There is also an IRC channel #FrostFree where points, users and whoever else meet up on a nightly basis. It gets a bit wacky so be warned :)

\*GAMES\*

If you really are a complete anorak, you can play ANSI BBS games. Enjoy yourself and make BT richer while the rest of us go to Dixons and buy a PlayStation for 99 quid.

\*EPILOGUE\*

Frost Free is a BBS, it has Files on CD, it has important files not on CD, it also carries mail and the SysOp will look after you.

Thank you.

Dave Naylor (The SysOp of Frost Free) (Honest)

Moonlight BBS offers a large collection of files in over 40 subject areas. Unlimited downloads (no ratios) for registered & validated callers. New files are added frequently from recent Aminet uploads. The BBS caters mainly for the 'serious' caller who wants useful files: but we have a small stock of games, pictures & animations, music files. Newcomers to the 'comms' scene are given help and advice. There are a number of 'help text' files available for download.

#### Special features

-----

Bulletins (Information and help texts.)  
Online game ('Hack & Slash'), 'Trivial Pursuit' type quiz.  
Online CD: the latest Aminet CD is always available to download files.  
SysOp Chat - keyboard 'chat' with the SysOp when he is available.  
Callers' advertisements: For Sale and Wanted (No charge for adverts.)  
Tutorial files for comms & internet software setup.

#### Some of the file areas

-----

Amiga Utilities, including disk and file utilities.  
Archivers & Packers (with instructions on usage.)  
Diagnostic software.  
Comms Software & Information.  
Internet Software & Information.  
Programming (Mainly C and Arexx).  
Graphics: Utilities, Pictures & Animations.  
Sound: Utilities, Music & Samples, MIDI music files.  
Hardware Information.  
Printing & Fonts.  
CD utility software.  
Editors, including ANSI and Web.  
Libraries including some that are hard to find.  
Printer drivers for many makes.  
Humour - mainly texts. Funny stories etc, some true.  
Leisure: Games & Graphics.  
Virus Checkers & Information.  
'Page 3': Girly pictures (but no porn.)

#### What is NOT carried

-----

'Adult' material.  
Commercial and copyright software.  
Netmail.
