Demodex

1.1 The demos on Aminet

```
                              The demos on Aminet CD 36

        Best demos
      The top demos on this CD, ready to run

        Good demos
      The good demos on this CD, ready to run

      Compatible demos
      The remaining demos that work on an A4000/040

        Other demos
      The demos that cannot be run directly
```

Make sure you have no unsaved work in memory when starting demos, they
may crash or alter your system configuration. Also, many demos force you
to reboot. The
                  BootTool
                  can automatically bring up a list of demos you
haven't seen yet at every startup.

And here's the complete list of demos. Some don't work on accelerated
Amigas, others need to be installed, and some are just data files for
other demos.

```
  demo/aga    Demos requiring AGA chipset
  demo/euro   Euro demos in file form
  demo/file   Single file demos
  demo/intro  Intros
  demo/mag    Demo coder magazines
  demo/sound  Sound oriented demos
  demo/track  Trackmos

```

1.2   **The Boot Tool**

```
                        The Boot Tool

 Don't you hate demos that have no exit, thereby forcing you to reboot after
 every demo viewed? Well, I can't change those demos, but I can make the
 rebooting as painless as possible.

 If you drag the program 'BootTool' from the Tools drawer to your WBStartup
 drawer (OS 2.0 and up), you'll be seeing the list of no-exit demos at
 every startup. You can click any of those demos to run it. After the
 reboot, that demo and all that were above it will be removed from the
 list automatically.

 If you want to show all demos again, clock 'Show All' at the bottom of
 the list and reboot. If you want to stop viewing demos, click 'Uninstall'
 at the bottom of the list. You can, however, drag the BootTool to the
 WBStartup drawer again and continue from where you left off.

     Install   BootTool in your WBStartup drawer
  Run BootTool  for a first go
```

1.3   **Best demos on this CD**

1.6   Non startable demos on this CD

These are the demos that cannot be run directly on an Amiga 4000.
Check the readmes to see why, 'Action: NoA4000' means this crashes,
'NoStart' means that it needs to be installed first.
