# Chapter 1

## Test

### 1.1 Script DataType - Test File 2

Cloanto Script DataType `^1$`

This document is designed to be displayed with MultiView or AmigaGuide compatible viewers.

A double-click on the "Test\_2" icon executes MultiView, which in turn tries out different DataTypes to process the "Test\_2" file, which is an AmigaDOS script programmed to display this document with a standard Amiga viewer.

If the Script DataType is installed, this document will be displayed. Otherwise, it is most likely that the AmigaDOS script will be displayed as a text file.

The Script DataType enables "drag and drop" of AmigaDOS scripts such as these test files.

Your feedback on this software is very appreciated.

`^1$` The Script DataType and the name Cloanto are respectively Copyright © 1996 and a registered trademark of Cloanto Italia srl.
