1.2 AmiHunter.amirx

What is AmiHunter

What is AmiHunter, Well kinda a Cross between Aminetfind.amirx & AmircFetch.amirx.

So Realy what is AmiHunter. AmiHunter lets you search and download from aminet via Amirc & Zed_httpget. Amnetfind.amirx worked great for finding files, but didn't download. Amircfetch.amirx used ftpget to download and required you to type in the full path of file you wanted to download, and had no progress indicator of the file progress. So AmiHunter was born, Which Searches/Gets/Views Readme's of the requested files all in and has a download progress GUI.

AmiHunter is EMailware and included in Kuang\$^1\$\$^1\$ 3.0.

1.3 Requirements

Requirements for AmiHunter.amirx

All should be included with K\$^1\$\$^1\$ 3.0

Libs:rexxkuang11.library
Libs:rexxdossupport.library
Libs:rexxreqtools.library
Libs:rexxsupport.library

C:Zed_Http

AmiHunter.amirx

1.4 Installation

AmiHunter.amirx Installation

AmiHunter should have been installed by K\$^1\$\$^1\$'s installation, but I'll tell You where things are and go....:)

```
AmiHunter.amirx - amirc/rexx/
```

All the required libs in LIBS: or libs: path

Zed_HTTP moved to C:

```
AmiHunter.amirx Alaises
```

The following Alaises are part of the K^S¹^S¹ Alaises Plugin.

```
Find = /rx Amihunter find %p
Get   = /rx Amihunter get  %p
CSend = /rx Amihunter Csend %p
USend = /rx Amihunter Usend %p
VRead = /rx Amihunter vread %p
```

Config

Your default download dir needs to be configured in the script load into a text editor and change to your download dir.

Also config if you wish .readme's to be downloaded when you download the file.

Also config if you wish .readme's to be deleted after you view them using the Vread option.

See

```
How to Use
for Usage.....
```

1.5 Using AmiHunter

Find

```
/find [EXACT] <"substring"|"sub strings">
        [-w<width>] [-m<items>] [-s<site.number>]
```

Examples:

```
/find AMSD
```

```
«AmiHunter» Finding: amsd, width 100, maxlength 20,
Site: ftp.uni-paderborn.de.
```

```
«AmiHunter» 1. dcamsd21.lha  comm/tcp    50K Aminet Mini Searcher Downloader GUI ↔
/ Mini
```

```
«AmiHunter» 2. DreamsDark.lha mods/melom 287K Dreams of Dark (film/orch)
```

```
«AmiHunter» 3. dreamsdz.lha  mods/xm    572K Slow xm by Vogue
```

```
/csend 2,3 -- Will send files 2,3 to current channel
```

```
/usend <%U|nick> 2,3 -- will send text 2,3,4 to nick
%U - will get select nick from users list
```

```
/get 2,3,4 will download files 2,3,4
Zed_Httpget gui will open of WORKBENCH and show the progress of the file
Closing the GUI will abort the download
```

```
/vread 2
Will download the readme to T: and use multiview to read the readme.
```

Other Examples:

```
/find "irc client" - Searches for anything with "irc" AND "client"
/find exact "irc client" - Searches for anything with "irc client" exactly
/find amsd -m5 - Shows 5 lines of output
/find amsd -w120 - Truncates output to 120 characters
/find amsd -w60 -m10 - Shows up to 10 lines truncating to 60 width
/find "comm/net irc " - Will search in comm/net (the directory)
/find amsd -s4 - Will uses site.4 in the site list
```

Tips:

- o If you search for more than one keyword you MUST put it in quotes.
- o Quotes must be " quotes, not ' quotes.
- o - options MUST be the last options on the line.

1.6 Known Bugs

GUI opens only on WORKBENCH, not a programed yet.. but working on it....

Nothing else i could find.....

1.7 Updates

Check out the Amihunter web page provided by Digitechmedia.

1.9 History

22-May-98

Given to Ariel for Public Release

25-Mar/5May-98

Many Changes and fixes.....

20-Mar-98

First working verison....

1.10 The Future

THE FUTURE OF AmiHunter

AmiHunter is Emailware, if you use any part of the AmiHunter package, please send me a Email, as alot of time has been spent on this project.....

Future enhancement depends on user support.

Future Plans:

Fix the GUI to open on AmIRC Screen...

Also working on making it a public channel command

Email: bosman@erols.com

1.11 Thanks

Thanks to the following for Helping:

Olli for AmIRC v2.x

Ariel Mangum for K\$^1\$\$^1\$/Including/Helping with script

KingGuppy for adding needed functions to REXXKuangle11.library.....

Zed for Zed_HTTP.....

Josef Faulknet for the original Aminetfind.amirx,
Ariel for the updated version with K\$^1\$\$^1\$ 2.8.
Deryk Robosson for AmircFetch.amirx

Nitram/Lanky/Gero^msr for Beta testing.....

DFDuck for some rexx help....

And Anyone Else I may have left Out....
