### 1.2 Co to jest BlaBla

BlaBla jest grupą zrzeszającą programistów piszących programy współpracujące z systemem. Gwarantuje to poprawną pracę na wielu modelach Amig, oraz zapewnia zachowanie kompatybilności "w górę". Pozwala to również na korzystanie z tak ważnej cechy, jaką posiada Amiga, jak multitasking. Nasze programy mają zazwyczaj status PublicDomain, FreeWare lub ShareWare, co pozwala na ich darmowe rozpowszechnianie.

Grupa posiada własne konto Internetowe. Nasze programy można znaleźć w Aminecie - rozpoznasz je po nazwie zaczynającej się "2b\_". Nasze najnowsze programy można również znaleźć w wydawanym przez nas pakiecie polskich programów użytkowych PolWare. Zapraszamy również do lektury redagowanego przez nas magazynu dyskowego Izvestia. Traktuje on głównie o programowaniu i zawiera opisy wielu ciekawych programów.

Zainteresowanych współpracą z naszą grupą, bądź chętnych do wymiany doświadczeń i uwag na temat programów, prosimy o kontakt z którymś z członków BlaBla.

### 1.3 BlaBlaInfo - deutsch

BlaBla ist eine polnische Entwicklergruppe. Wir entwickeln nur systemfreundliche Programme und garantieren, daß sie alle auf den meisten System (nur Amiga natürlich) laufen. Alle unsere Programme laufen im Multitasking und sind Public Domain, Freeware oder Shareware.

Unsere Organisation hat nur wenige Mitglieder (wir nehmen ja auch nur gute Programmierer), eine eigene eMail-Adresse. Unsere neuesten Sachen findest du in einer PD-Serie namens "Polware". Texte und Artikel findest du auch auf unserem DiskMag "Izviestia" (allerdings nur auf Polnisch!).

Die BlaBla Gruppe ist in Polen sehr bekannt und Programme mit dem Label "Blabla" sind definitiv gut. Wir haben bereits mehrere Projekte gemacht, helfen jungen Programmierern, schreiben Artikel für das polnische Amiga Magazine, wir versuchen alles, nur für den besten Computer - Amiga!

## 1.4 BlaBlaInfo

BlaBla è un dei più grandi gruppi polacchi di programmatori. Facciamo programmi system friendly. Garantiamo che i nostri programmi funzioneranno su pressoché ogni macchina (Amiga), includendo le macchine a venire. Tutti i nostri programmi sono funzionanti in multitasking, e tutti sono PD, Freeware, o Shareware.

La nostra organizzazione è composta da pochi membri (noi "accogliamo" solo ottimi programmatori), una nostra e-mail. Le nostre produzioni più recenti le puoi trovare nella nostra libreria file di PD chiamata "Polware". I nostri testi, articoli puoi inoltre trovarli nella nostra rivista con dischetto "Izviestia" (ci spiace, è in polacco!).

Il gruppo BlaBla è ben conosciuto in Polonia, ed i programmi firmati da "Blabla" sono di sicuro molto buoni. Abbiamo diverse produzioni, aiutiamo diversi giovani programmatori, scriviamo articoli dell'edizione polacca di Amiga Magazine, cerchiamo di far tutto, per il nostro ben amato computer - Amiga!

## 1.5 BlaBla? Hva er det?

BlaBla er Polens største system programmerer gruppe. Vi lager systemvennlige programmer. Vi garanterer at våre programmer vil virke på nesten alle maskiner (Amiga selvfølgelig), inkludert fremtidige. Alle våre programmer støtter fleroppgavekjøring, og de er alle PD, Freeware, eller Shareware.

Vår organisasjon har noen få medlemmer (vi "absorberer" bare gode programmerere), en egen e-post adresse. Våre nyeste produksjoner kan du finne i vårt PD bibliotek kalt "Polware". Våre tekster og artikler kan du også finne på vårt diskett-magasin "Izviestia" (Beklager, dette er på Polsk!).

BlaBla gruppen er velkjent i Polen, og programmer signert med "Blabla" er garantert veldig gode. Vi lager mange produksjoner, vi hjelper mange unge programmerere, vi skriver artikler i den Polske utgaven av Amiga Magazine, vi prøver å gjøre alt for vår elskede datamaskin - Amiga!

## 1.6 BlaBlaInfo

BlaBla est le plus gros groupe Polonais programmeurs système. Nous faisons des programmes qui respectent le système ; nous garantissons que nos programmes fonctionnent sur presque toutes les machines (Amiga bien sure), en incluant celles du future. Tout nos programmes fonctionnent en multitâche, et ils sont tous PD, Freeware, ou Shareware.

Notre organisation n'a que quelques membres (nous n'"absorbons" que les bons programmeurs), une adresse e-mail propre. Vous pouvez trouver nos plus récentes productions dans notre bibliothèque PD nommée "Polware". Vous pouvez aussi trouver nos textes et articles dans notre disk-mag "Izviestia" (en Polonnais!).

Le groupe BlaBla est bien connu en Pologne, et les programmes signés avec "Blabla" sont vraiment très bons. Nous faisons plusieurs productions, nous aidons plusieurs jeunes programmeurs, nous écrivons des articles pour l'édition polonaise de Amiga Magazine, Nous essayons de tout faire, pour notre ordinateur adoré - l'Amiga!
