Demodex

1.1   The demos on Aminet

```
                              The demos on Aminet CD 45

        Best demos
     The top demos on this CD, ready to run

        Good demos
     The good demos on this CD, ready to run

     Compatible demos
     The remaining demos that work on an A4000/040

        Other demos
     The demos that cannot be run directly
```

Make sure you have no unsaved work in memory when starting demos, they
may crash or alter your system configuration. Also, many demos force you
to reboot.

And here's the complete list of demos. Some don't work on accelerated
Amigas, others need to be installed, and some are just data files for
other demos.

```
  demo/40k     40K intros
  demo/aga     Demos requiring AGA chipset
  demo/euro    Euro demos in file form
  demo/intro   Intros
  demo/mag     Demo coder magazines
  demo/slide   Image oriented demos
  demo/sound   Sound oriented demos

```

1.2   The Boot Tool

```
                            The Boot Tool
```

Don't you hate demos that have no exit, thereby forcing you to reboot after
every demo viewed? Well, I can't change those demos, but I can make the
rebooting as painless as possible.

If you drag the program 'BootTool' from the Tools drawer to your WBStartup
drawer (OS 2.0 and up), you'll be seeing the list of no-exit demos at
every startup. You can click any of those demos to run it. After the
reboot, that demo and all that were above it will be removed from the
list automatically.

If you want to show all demos again, clock 'Show All' at the bottom of
the list and reboot. If you want to stop viewing demos, click 'Uninstall'
at the bottom of the list. You can, however, drag the BootTool to the
WBStartup drawer again and continue from where you left off.

```
     Install    BootTool in your WBStartup drawer
  Run BootTool  for a first go
```
