## Chapter 1

# AminetDemos

### 1.1 The demos on Aminet

The demos on Aminet CD 5

Of the demos on this CD, I can especially recommend:

Best demos  
The top demos on this CD, ready to run

Compatible demos  
The demos that run on an Amiga 4000, ready to run

As with games, any of these demos may crash the system, have no exit function, or might modify your system configuration. So, don't start demos when you've got unsaved work in memory.

A note to AGA owners: In some demos, the screen turns grey at the beginning and stays grey for a while. Don't worry, the AGA compatibility tool needs to bring up a blank screen, and the demo has to decrunch before it can bring up its own display.

And here's the complete list of demos, some are not compatible with accelerated Amigas, and some you will need to extract and install first before you can run them.

demo/aga	Demos requiring AGA chipset
demo/euro	Euro demos in file form
demo/intro	Intros
demo/mag	Demo coder magazines
demo/mega	Euro demos requiring floppies
demo/par94	Demos from The Party 94
demo/slide	Image oriented demos
demo/sound	Sound oriented demos

## 1.3 Compatible demos on Aminet

These are the demos on Aminet that run on an (degraded) Amiga 4000/040, so they should run on any system. Degradation happens automatically when you click the demo. No DMS format archives included. Again, demos with and without quit function are listed seperately; although sometimes the categorization may be inaccurate.

All compatible demos with a quit function:
