So be sure to register so we can keep you informed about all the latest good stuff!

Crystal 3D IMPACT! Pro

Crystal 3D IMPACT! Pro is the world's easiest to use 3D animation software. Now it's a snap for anyone to add the impact of impressive 3D titles, logos, objects, buttons, and pictures to presentations, web pages, banner ads, and videos. Crystal 3D IMPACT! Pro (Win95 and NT 4.0) sports many innovative features such as:

- **Visual Wizards** ❑ A friendly AutoContent wizard guides you through the 5 steps of lighting, text entry, beveling, assigning materials and adding motion.
- **3D Objects Catalog** ❑ Enhance your productions with over 145 royalty-free, highly-detailed, pre-built 3D clipart objects, organized in a customizable object gallery.
- **Automatic Highlights and Sparkles Placement** ❑ With just a couple mouse clicks, you can easily and automatically create unique highlights and sparkles to your 3D objects.
- **Automatically Converts 2D Artwork Into 3D** ❑ Crystal 3D IMPACT! Pro is the only 3D program that can import images as 2D objects and *automatically* convert them to 3D with a single click.
- **Powerful Lighting Tools** ❑ Create and manipulate light bulbs, spotlights, sunlight and ambient lighting. You have complete control to achieve many kinds of lighting effects.
- **Soft-Edged Shadows** ❑ Creates incredible looking drop shadows and object shadows with a shadow edge softness that you can select.
- **Object-to-Object Reflections** ❑ Selectively adds realistic mirror effects to your 3D objects using automatically generated environment maps.
- **Ray-Traced Refractions** ❑ Produces breathtaking glass effects by using true light-bending (ray-tracing) techniques. You can even control the amount of light bending to simulate anything from glass to diamonds.
- **Bump Mapping** ❑ Dramatically simulates the bumpy effect of real-world surfaces, with a bump height that you control.

…And More!

"The awesome speed, quality, and power are the best I've seen in any product in its class."
-- Mark Wacholtz

Crystal 3D CD

The easy and inexpensive way to enhance your presentations, web sites, videos and animations! With over 75 ready-to-load and ready-to-render 3D models, this is the first 3D model library designed specifically for Crystal 3D IMPACT! Pro users.
