

EZ-Address changes in v1.2

- reduced maximum number of records to 154
- made most of the text boxes bigger
- increased size of telephone entry from 13 to 18 characters for international numbers
- faster text searches
- added a "Find Next" operation
- position of the main form is saved so that it will start up at the same place you left it
- added a phone dialer

EZ-Address changes in v1.2a

- fixed a problem with the dialer not dialing properly without a prefix

EZ-Address changes in v1.2c

- sorting routine is significantly faster
- added basic printing option

EZ-Address changes in v1.2d

- made the program a little bit more efficient
- comma now works correctly in the dialer

EZ-Address changes in v1.2e

- sorts are now case insensitive
- maximum number of records in unregistered version is now 200; registered version can have up to 409 records
- fixed another bug in the dialer--hopefully the last one
