Last Update: Sunday, October 25, 1992

First Class BBS's!

If a certain number is accessible through PC Pursuit, the appropriate outdial city code has been included. All such numbers are accessible with xxx-xxxx except where otherwise noted. Please note that BOTH numbers on MacIsland require 1-310-476-xxxx (there is a "&" between the city codes to indicate this). For instructions on how to use PC Pursuit to connect to First Class BBSs using the GUI, write me on OneNet as Alex Bottinelli.

Any Number with an asterisk (*) preceeding it is currently down or otherwise not accessible right now. Please don't call until further notice.

Numbers with two asterisks (**) are new or have been changed in some way since last update.

Numbers with three asterisks (***) are new, but are not currently accessible. Watch for these to change sometime.

If there are any additions, changes, or deletions, please E-Mail me on OneNet as Alex Bottinelli.
