## 1.7 48.guide/Economy (Chad)

Economy (Chad)

=====

Overview:

The climate, geographic location, and lack of infrastructure and natural  
resources make Chad one of the most underdeveloped countries in the world.  
Its economy is burdened by the ravages of civil war, conflict with Libya,  
drought, and food shortages. In 1986 real GDP returned to its 1977 level,  
with cotton, the major cash crop, accounting for 48% of exports. Over 80% ←  
of  
the work force is employed in subsistence farming and fishing. Industry is  
based almost entirely on the processing of agricultural products, including  
cotton, sugarcane, and cattle. Chad is highly dependent on foreign aid, ←  
with  
its economy in trouble and many regions suffering from shortages. Oil  
companies are exploring areas north of Lake Chad and in the Doba basin in  
the south. Good crop weather led to 8.4% growth in 1991.
