1.2 About

```
 About

 This Program contains over 2600 Acronyms and their meaning.

 Have you ever wondered when using your computer what all those Acronyms mean?
We all use them but don't really know what they mean. Acronyms ??

 Ok the dictionary definition:

 acronym - A word formed from the first (or first few) letters of a series
```

of words.

 So it was born WDTM or better said What Does This Mean. The entries are very
often abstract and unknown but there are also plenty of Amiga related entries.

1.3 Usage

 Usage

 Just enter the Acronym in the text entry Bar, and the Database will be
searched for any entries. All found entries will then be listed in the
window.
  Use only standard letters for example from the German Dfü you should enter
Dfue. You can ignore Upper and lowercase letters as the program treats them
all as the same. You should not use any connecting strokes such as CD-Rom
just use CDROM. The same applies to fullstops & Spaces. This has been done to
simplify the usage.

 That's it really not much more to say. It could not be easier.

1.4 Requirements

 Requirements

 An Amiga would be good, with Wb2+ and 200k free memory.
 It could work with Wb1.x but who knows and to be honest
 who cares, if your still using this old system then how
 can you read this guide file?

 WDTM has been tested on:

 Amiga 1200 WB3.1 030 50Mhz with 32Mb Fast Ram, 250Mb AT
 Hard drive and external 2 Gigabyte SCSI + PCMCIA CD.

1.5 History

 History

 V1.0 - Original Release. 06.01.97

1.6 Legal

 Legal

  WDTM may be freely distributed as long as no charge is made other than to
cover time & copying costs. If it is to be distributed via floppy disk, this
cost should be not higher than £2.00/DM 5.00. If distribution is via CDRom,
the total cost should be no more than £20.00/DM 50.00.

 Fred Fish, Meeting Pearls, and the Aminet have my Permission to distripute
this Program on their various Storage devices.

You may not disassemble, decompile, re-source or otherwise reverse engineer
the program.

This product is sold "as is" without representation or warranty of any kind,
either   expressed or   implied. No responsibility will be taken for any
incorrect entries. The user assumes all risks and responsibilities related
to its use. Use this Program at your own Risk!

                                          Gary Henderson 06.01.1997
