1.14 Informationen zum Assign-Script...

Informationen zum Assign-Script:

Um Probleme zu vermeiden, sollte dieses Skript unbedingt vor der Benutzung der CD gestartet werden!

Die meisten Programme benötigen spezielle Dateien wie z.B. Systembibliotheken, Zeichensätze, Konfigurationsdateien oder Handler, um zu laufen. Alle diese Dateien, die von den Programmen benötigt werden, befinden sich bereits installiert auf dieser CD.

Dieses Skript bindet diese Daten, ohne eine Änderung an Ihrer bestehenden Konfiguration, ein.

Um die Assigns wieder zu entfernen, reicht ein weiterer Doppelklick auf das Skript-Icon.

1.15 Informationen und Hilfe zur CD-ROM...

Informationen zur CD-ROM:

Diese CD-ROM wurde so zusammengestellt, daß alle Daten direkt und unproblematisch zugänglich sind. Um ein Modul oder Sample abzuspielen, brauchen Sie lediglich auf das entsprechende Icon doppelt zu klicken.

Damit alle benötigten Abspielprogramme direkt von der CD-ROM geladen werden können, ist es unbedingt anzuraten, daß «erstelle_assigns» - Script zu starten.

Um sich die einzelnen Module auf dieser CD-ROM anzuhören, genügt es, den DeliTracker II zu starten und die entsprechenden Module von der Workbench aus auf die Programmoberfläche von DeliTracker II zu ziehen. Sie können aber auch mit Hilfe des DeliTrackers eigene Programme zusammenstellen, die dann Schritt für Schritt abgearbeitet werden. Lesen Sie hierzu die Dokumentation des DeliTrackers.

Wir wünschen Ihnen viel Spaß und gute Unterhaltung mit der AmigaPlus EXTRA-CD-ROM Nr. 5

Dieses Script wurde erstellt von
