Click on this gadget to see a Demo of the
A.I.S.F virus. Push left mouse button to return.

ATTENTION: Don't press the mouse beacuse this will start the
heads of your disk drive and lock your keyboard.
The heads will start going crazy like a motorboat
and the result can be damaged disk and mabe a
defective disk drive if you are very unluckey.

The only way to minimize the damage is to switch
off the main switch as soon as possible.
