XprZSpeed 3.2 (9556)	-	0	0-BBS	Infiltrate or damage BBS

And infected disks with "French Kiss virus" ,"ABC virus" and containing the whole viruses block 0-3 (2048 bytes). I ONLY have the first 1024 bytes!

AND OF COURSE ANY NEW.... virus you might find !

Please..mark the disk "Attention Virus"(please take care of my hard disk)
Remember to state your address and phone number if you want a reply, but

isn't necessary, if you want to be anonymous, only the VIRUS counts. (SHI don't care, what "KIND" of disk you send us). After the disk is analyzed the disk is formatted and your name, will be 100 % arcivated in our trashcan. SHI ALWAYS..... keep our promise!!, (no more questions then!)

1.3 Virus Index

HOW TO USE THIS SHI AMIGA VIRUS TUTOR

(XXXX) Indicate the actually file length

Code 1' - I don't have this virus, please send it to me!
 + I have this virus for testing purposes.

Code 2' 0 I don't know anything about this virus.
 A Very dangerous and easy spreading virus.
 B Dangerous and easy spreading virus.
 C May be dangerous and it is easy spreading.
 D May be dangerous, not easy spreading.
 E Not at all a virus.
 F Virus Protector normally resident in RAM.

Code 3' A- Family Code indicates virus-family. That means
 viruses very like each other. Please note, that
 a virus can be exactly the same as another, but
 with a different name.

 -F Indicates a non-boot block virus (File virus).
 -L Indicates a non-boot block virus (Link virus).
 -BF Indicates a boot virus with a file part.
 -BL Indicates a boot virus with a link part.
 -B Indicates a Bomb, which can't infect.
 -T Indicates a Trojan Horse, which can't infect.
 -TB Indicates a Trojan Horse, which infect BB.
 -TL Indicates a Trojan Horse, which infect Link virus
 -BBS Indicates a infiltrator program for BBS
 -H Indicate a program, which can hide a virus.

Example : B-F "B-", The first indicate family (TTVI), and "-F" The second indicate File.

1.6 Virus Index

ATTENTION!

A very EASY...way is to send the viruses to your regional center, who will then send them along to the SHImain, and to our SHI supported virus killer programmers. Please see in the "About Safe Hex International" text file for the SHI addresses and our SHI bulletin board. (Actually SHI run more than 30 Amiga virus centers worldwide).

.....

* THANK YOU VERY MUCH FOR YOUR HELP! *

WITHOUT YOUR VALUABLE HELP WE COULDN'T HAVE MAKED THIS PROGRAM

.....
