Chapter 1

Virus Info Base

1.1 T.F.C. Revenge V1.03

Name : T.F.C. Revenge V1.03

Aliases : No aliases

Original : Extreme

Type/size : Boot/1024

Symptoms : Shows an alert.

Discovered : 06-02-92

Way to infect: Boot infection

Rating : Dangerous

Kickstarts : 1.2/1.3/2.0

Damage : Fastformat of all disks.

Manifestation: In the boot you can read: "T.F.C. Revenge ...etc"

Removal : Install boot

Comments : The virus is resident by using the KICK-Vectors. It uses DoIO() to infect other Disks. Additionally it patches \$90(a6)-Interrupt. This patch sets the KICK-Vectors always to the virus-value. After 3 infects a fastformat-routine will be started (all disks BAD!) and an alert will shown:

The Fanatic Crew

proudly presents

T.F.C. Revenge V1.03 Virus...etc

Click on this gadget to see a Demo of the TFC

Revenge virus. Push left mouse button to return.

After presing any mouse button the AMIGA resets.
This Virus is a clone of the Extreme "Antivirus".
