1.2 Hilfe

Information

Sie halten in den Händen die erste Ausgabe der AmigaPlus LeserCD mit einem gesonderten Software-Teil. In diesem Bereich finden alle aktuellen Neuerscheinungen und Updates für den Amiga.

Das Inhaltsverzeichnis hilft Ihnen auf eine sehr schnelle Weise das gewünschte Programm zu finden. Leider ist das entpacken der Programme aus dem AmigaGuide direkt noch nicht möglich. Daran wird aber bereits kräftig gearbeitet, so das sie bereits ab der nächsten Ausgabe diese Funktion vorfinden werden.

Solange benutzen Sie bitte das Programm "Unarc" das zusammen mit dem Betriebssystem AmigaOS3.9 ausgeliefert wurde.

Wir haben auch den LHA-Entpacker und die Gui-Packmaster beigelet, auch damit ist ein komfortables entpacken möglich.

1.17 COPYRIGHT - Rechtliches

!!! Wichtige Information für Software-Entwickler !!!

Wir bemühen uns sehr regelmäßig für unsere Leser eine interessante CD-Rom zusammenzustellen. Dabei greifen wir auf Software verschiedener Quellen zu. Bevor ein Programm auf die CD-Rom kommt, prüfen wir soweit es möglich ist ob dieses auch von Ihnen (Entwickler) erwünscht ist. Leider läßt es sich manchmal nicht vermeiden das ein bestimmtes Programm trotz der Information in Ihrer Dokumentation auf die CD-Rom kommt. Bedenken Sie aber das eine vielzahl von Amiga Anwendern noch immer über kein Zugang zum Internet verfügt und die LeserCDs oft deren einzige Quelle für neue Software ist. Wir werden soweit es möglich ist, weiterhin jedes Programm auf Verbreitungswünsche prüfen. Sollten wir dennoch solch ein Hinweis mal übersehen, so bitten wir Sie um ihr Nachsehen.
