 We, The Creators Of "Coin Mania", Hope That You Will Enjoy Playing ↔
 This Game

Almost As Much As We Have Enjoyed Making It. There Is Only One Consideration
 That We Hope You Will Have In Mind When Playing This Game And That Is That
 You Are Not Using A Copy Off Someone Else.

Pirates

Have Their Reasons For

Copying Software, But They Have Absolutely No Reason To Copy This Game, It is

Cheapware

, Cheap ! If They Think It Is Rubbish, They

Will Only Have Wasted £5.00 Not £25.00.

Pirates Copy Software Of Value Just For The Price Of A Blank Disk, Which Reduces Companies Profits And Gives Companies An Excuse To Charge Excessive Prices For Their Games, Which As Often As Not, Are Crap ! If You Had Paid £25 For A Crap Game Would You Be Happy ? NO We Are Not Condoning Piracy, But There Are Two Sorts Of Pirate , Make Us Really Sick :

A : Those Who Charge Money For Pirated Software.

B : Those Who Pirate Software From Independent Sources,
i.e Not From Software Houses (Shareware e.t.c).

A Note To Software Houses :

Reduce Your Prices And Give All Computer Shops Playable Demos Of Your Games So People Can TRY BEFORE THEY BUY. If You Do Not Want To Reduce Your Prices An Excellent Way Around This Is To Include A Voucher For £5-£10 With Every Game You Sell So If Someone Buys One Of Your Games The Next One Will Only Cost About £15-£20 Depending On Its Original Price. So Only People That BUY Your Games Will Get Them More Cheaply.
