

To all you STREAM types,

Ok, so you have heard it all before. The battle cry "We've got a web-site!" drenched under the bloody sombrero of marketing. Well here it is again. STREAM has a web-site. So visit us.

www.mixedmedia.com/stream/stream.html

Once on our site you will find all sorts of nifty stuff. Screen-savers, videos, monkeys, free money, full text of the interviews from past issues, plus updates of STREAM sponsored events happening in your area in the next few months.

Thanx -
