Overview

Somarsoft OfficeCab is the 32 bit successor to Somar OfficeCab, a file cabinet for Microsoft® Office documents. Somarsoft OfficeCab allows you to easily rename Microsoft Office files, using the existing title (stored in the summary information) as the basis of a new file name. This is useful for users who have hundreds of documents with descriptive titles, but short 8.3 filenames.

Somarsoft OfficeCab can also be used as an interface to your files. It has a filter option (CTRL+T) which allow you to quickly find a document based on file name.

Installation

- 1) Place OFFCAB.EXE and OFFCAB.HLP together in any directory.
- 2) The first time OFFCAB.EXE is run, it will create the following registry key:

```
HKEY_CURRENT_USER\SOFTWARE\Somarsoft\OfficeCab
```

- 3) Somarsoft OfficeCab makes no other changes to your system.

Uninstallation

- 1) Run `OFFCAB.EXE` with `/u` as a command line parameter. If successful, a message box will be displayed indicating that the `Somarsoft\OfficeCab` registry key has been deleted.
- 2) Delete `OFFCAB.EXE` and `OFFCAB.HLP` from your computer.

Notes on using

1) You can specify a directory name as an optional command line parameter. This directory will be used as the starting directory, instead of the directory saved in the registry from the last time the program was run.

2) The Copy All command on the Edit menu allows you to copy the filename and last modified time information for all files in the directory to the clipboard.

3) The Create OfficeCab Icon command on the File menu allows you to create icons containing text strings. You can then associate these icons on the desktop with a command line and directory parameter. OfficeCab will change to the specified directory when the icon is clicked. For example, install two icons on the desktop with the following properties:

Command line	c:\program files\officecab\offcab.exe
Parameter	c:\mydata\notes
Icon	c:\mydata\offcab1.ico

Command line	c:\program files\officecab\offcab.exe
Parameter	c:\mydata\documents
Icon	c:\mydata\offcab2.ico

OfficeCab will open the directory specified as the command line parameter when the icon is clicked.

Known bugs and limitations

1) Maximum number of files in a single directory that can be shown is 4096. If there are more than 4096 files in a directory, only the first 4096 will be displayed and you will be notified by a message box.

Copyright/License/Warranty Disclaimer

Somarsoft OfficeCab is Copyright © 1994-1996 Somar Software, All rights reserved.
Send problem reports and other comments to info@somarsoft.com.

You should carefully read the following terms and conditions before using this software. Use of this software indicates your acceptance of these terms and conditions. If you do not agree with them, do not use the software.

License Agreement

This is not free software. You are hereby licensed to: use the Shareware Version of the software for a 30 day evaluation period; make as many copies of the Shareware version of this software and documentation as you wish; give exact copies of the original Shareware version to anyone; and distribute the Shareware version of the software and documentation in its unmodified form via electronic means. There is no charge for any of the above.

You are specifically prohibited from charging, or requesting donations, for any such copies, however made; and from distributing the software and/or documentation with other products (commercial or otherwise) without prior written permission, with one exception: Disk Vendors approved by the Association of Shareware Professionals are permitted to redistribute Somarsoft DumpAcl, subject to the conditions in this license, without specific written permission.

You are specifically prohibited from copying or redistributing the keyfile (`OFFCAB.KEY`) that will be sent to you upon receipt of your registration payment.

Unregistered use of Somarsoft OfficeCab after the 30-day evaluation period is in violation of United States and International copyright laws.

A registered single-user copy of Somarsoft OfficeCab can only be installed and/or run on a single computer. Thus, if you have 3 computers on which you want to install and/or run Somarsoft OfficeCab, you must register and pay for 3 copies of Somarsoft OfficeCab.

Organization licenses are available which allow the software to be used on a large number of computers owned by a single organization. For example, a license to use the software on all computers owned by the organization and located in a single specified city, or all computers in a single specified country or all computer owned by the organization worldwide. Visit <http://www.somarsoft.com/ordering.htm> for details on pricing.

You may access the registered version of Somarsoft OfficeCab through a network, provided you have obtained licenses for the software covering all workstations that will access the software through the network.

Upon receipt of your registration payment, you will be sent a key file (`OFFCAB.KEY`), which is to be placed in the same directory as `OFFCAB.EXE`. This key file will be your proof of registration. The presence of this key file will enable certain functions of Somarsoft OfficeCab which are disabled in the unregistered version. These functions involve the ability to produce hardcopy printouts of the Somarsoft OfficeCab report.

For how to register and pay for Somarsoft OfficeCab, see [Order form](#).

Note that Somar Software reserves the right to increase the registration fee at any time without notice. If the fee has been increased, and your payment is received after such increase, then Somar Software has the right to require additional payment before accepting your registration and sending you a key file. Once you have paid the then current registration fee, and Somar Software has accepted your fee and sent you

a key file, you have the right to use the version of Somarsoft OfficeCab that you paid for, for as long as you want, without additional payment. Future versions of Somarsoft OfficeCab may require a different key file. You may be required to pay an additional fee to upgrade to such future versions.

Governing Law

This agreement shall be governed by the laws of the State of California.

Disclaimer of Warranty

THIS SOFTWARE AND THE ACCOMPANYING FILES ARE SOLD "AS IS" AND WITHOUT WARRANTIES AS TO PERFORMANCE OF MERCHANTABILITY OR ANY OTHER WARRANTIES WHETHER EXPRESSED OR IMPLIED. Because of the varying hardware/software environments in which Somarsoft OfficeCab may be used, THERE IS NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

Good data processing procedure dictates that any program be thoroughly tested with non-critical data before relying on it. The user must assume the entire risk of using the program. ANY LIABILITY OF THE SELLER WILL BE LIMITED EXCLUSIVELY TO PRODUCT REPLACEMENT OR REFUND OF PURCHASE PRICE.

Order Form - Somarsoft OfficeCab V2.0.1

Current Somar Software voice/fax numbers, hardcopy mail address and up-to-date ordering instructions including current prices are available at <http://www.somarsoft.com/ordering.htm> or via email from info@somarsoft.com. This information is not included here because it may change from year to year.

You can register and pay for Somarsoft OfficeCab by 3 methods:

VISA/Mastercard/AMEX credit card. Send this form via hardcopy mail or fax, or send information via email (you must accept risks of eavesdropping on email), or place order by voice phone.

Check in US dollars drawn on a US bank, payable to Somar Software. Send with this form via hardcopy mail.

CompuServe registration service (GO SWREG, specify ID 2849). Charge will appear on your CompuServe monthly statement. Key file will be sent via email only.

When your registration payment is received, you will be sent a key file (`DUMPACL.KEY`) via email (SMTP MIME or CompuServe attachment). This key file will be your proof of license and will contain your registration name (see below) in encrypted format. When a valid key file is properly installed, the registration name will appear in the Help>About dialog box and all functions of Somarsoft DumpAcl will be enabled. Optionally, you can also have a 3.5" diskette shipped via hardcopy airmail, containing the keyfile and most recent version of the software.
