VIDEO FACTORY™

The Ultimate Multimedia Video & Photo Library for PC and Mac

Video Factory™ is a interactive video and photo CD-ROM library for MAC & PC. This CD features 320 x 240 stock videos and photos for multimedia designers. Includes AVI and QuickTime® video formats.

Video Factory™ features an interactive interface that allows you to scan through and play your entire video & photo library. Photos are in 24 bit & 8 bit BMP and PICT format.

PHOTOLAB® VOLUME 1

Volume 1 sports 100, 9x12 full bleed, 300 dpi High Res and 72 dpi color photos of tropical settings, textures, boats, cities, desert, clouds and more! Photolab Volume 1 is great for the professional graphic house, ad agency and multimedia user. Plus, it's 100% royalty free. This CD-ROM is a Hybrid CD and can be used on both Mac and PC. PhotoLab contains on screen high-res and low-res catalogs for Mac and PC. Both software browsers allow the end user to quickly and easily browse through their entire photo collection.

PHOTOLAB® VOLUME 2

Volume 2 contains 200 - 5x7 High-Res photos of hospitals, talent released patients, doctors and nurses, high-tech scenes, computers and equipment. We've prepared a superb collection of stock photos to be used for advertising, multimedia presentations and corporate inter-communications. These shots are crisp, informative and carry a lot of impact. Plus, this CD has been aggressively priced so everyone can afford high quality images. This CD-ROM contains on screen high-res and low-res catalogs for Mac and PC. Both software browsers allow the end user to quickly and easily browse through their photo collection. As a bonus, CDI has included trial versions of popular software for the end user to try out. Best of all PhotoLab CD-ROMS are royalty free! This means end users can use any of these images for advertising, corporate presentations, brochures, newsletters and multimedia presentations.
