

Bugs:

Currently, I have found none. If you should find one, please report it to me via e-mail to franke1@llnl.gov or via "hard" mail to:

Norman Franke
1885 Paseo Laguna Seco
Livermore, CA 94550

Also, please feel free to write if you have any kind suggestions, any questions about SoundApp 1.0 or my plans for future versions.

Future Additions:

- Support for compressed versions of various formats
- Support for other sound formats
- Conversion to System 7 Sounds of AIFF-C, AIFF 16 Bit
- Conversion to SoundCaps or Compressed SoundCaps
- Double Buffering of Compressed SoundCaps, if possible
- Direct play of 16 bit samples and AU files without conversion
- Save/Open of File Lists
- Resampling of converted sounds to "standard" rates
