MetaPhotos
Macintosh/Power Macintosh
Windows 95/NT

Choose from 35 fantastic, royalty-free volumes….

MetaPhotos is a breathtaking collection of 35 volumes of high-resolution (8-24Mb), royalty-free, drum-scanned images that make standard stock photography obsolete. Each volume has a specific theme and contains up to 120 reproduction high quality images of captivating textures, backgrounds, photo poses and image objects that will add impact to your advertising lay-outs, brochures, multimedia presentations and Web pages. Unlike traditional stock photography, we photographed each image specifically for this collection, then added time-saving extras. For example, you'll notice that shadows on objects fall consistently in the same direction, while convenient clipping paths let you simply place images onto backgrounds, hassle free. The built-in alpha channels let you simply select and load images to obtain a clean silhouette. There's no tedious production work, just more productivity. Each volume has a suggested list price of only **$49.95** per volume

MetaPhotos available via the Internet
http://www.metatools.com/metaphotos

The entire MetaPhotos library of thousands of high quality, digital ready images can be browsed by using an intuitive keyword search engine on the MetaTools' web site. Instantly view photos as thumbnail images and then place images in a "shopping cart" to continue browsing, or choose to download and pay immediately. Prices for individual images range from $9.95 to $14.95, based on the resolution. Typically, a 700Kb image costs $9.95 while a 15Mb costs $14.95.

System Requirements

Windows: Pentium (recommended) or 486DX or greater processor, Windows 95/NT, 16- or 24-bit video, 8Mb RAM, 30Mb free hard drive space for full preview, CD-ROM drive.

Macintosh: Power Macintosh (recommended) or 68040 Macintosh with FPU 7.5 or greater, 16- or 24-bit video, 8Mb RAM, 30Mb free hard drive space for full preview, CD-ROM drive.
