 Switching Yard Screen Saver

SWITCHING YARD is a Windows Screen Saver application which upon activation presents a randomly selected track configuration and railroad switching scenario.   The locomotive proceeds down the tracks, accompanied by railroad sounds, in order to accomplish the switching mission.   Upon completion, another track and switching scenario will be presented.

SPEED
Select the Train Speed (1-100) to set desired animation speed appropriate for your PC.
BACKGROUND
Select the CLEAR SCREEN option to BLANK the background to either BLACK or GRAY, or leave your Windows screen as the background.
SOUND
Set the SOUND option ON for sound effects through the Windows Multimedia Sound function.
COMPLEXITY
Select the display complexity to establish the amount of switching difficulty to be performed.

Watch out for the occasional crashes!
