Tabbed Dialogs (Version 1.0)
=====================

QD Implementation of tabbed dialogs.

6 easy steps to implement
===================

1. Add the two files to your project.

2. Size to form to your size.

3. Add as much picture boxes to the form as you need.

4. Adjust them over each other (not into!)

5. Add a caption to the tag property of your picture box

6. Add controls to your picture box.

1 hard step to implement
==================

1. Write the rest of your application.

Good luck.

Please don't forget to send me a copy of your program if you use one of my tools.
