Screen Saver Collection #1:
New Improved Updated Version 1.1 July, 1993

FISHES.SCR	Gives your screen that aquarium look.
CLOCKSVR.SCR	A nice analog clock which floats around.
QUILT.SCR	Shapes inspired by traditional New England quilt designs.
VARIOUS.SCR	A Neo-Post-Modern screen saver.
CYCLE.SCR	A saver which calls other savers..for that "what's next?" feel.

These screen savers are Copyright © 1991, 1992, 1993 by Gordon Harris.

New in version 1.1: Bug fixes, new "Fish" and "Various" art, and support for AfterDark, Norton Desktop for Windows and IdleWild savers in the CYCLE saver. The collection now also includes my SaveNow utility. See SAVENOW.WRI for details.

The self extracting install program will copy the saver files to your windows directory, or to another directory if you so indicated. To try out the savers, start the control panel (CONTROL.EXE) and double click on the "DeskTop" icon. Use the combo-box in the screen saver group to select one of the savers just installed...e.g. the Clock Saver. Press the "Test" Button to try out the saver.

Use the "Setup" button to play with some of the options available with these savers. All of the savers support password protection. The "Change wallpaper on exit" feature will swap your wall paper in a cyclic fashion every time the screen saver restores the screen.

My favorite saver of this bunch is the CYCLE.SCR: Cycle through all savers. This screen saver, when activated, picks another saver either randomly or cyclically and activates it. This helps prevent boredom at seeing the same saver over and over. Just use the control panel and select this one as your saver and CYCLE.SCR will do the rest. CYCLE now also supports Idlewild (*.IW) savers, Norton Desktop for Windows version 1 savers (*.nss) and After Dark savers (*.AD). To enable support for After Dark savers, copy the *.AD files into your windows directory or into the directory you selected on the CYCLE setup screen.

Please feel free to try these savers out for a week. If you keep them on your system after that, please send a check for $5.00 (U.S.) as a shareware fee to

If enough folks pony up the shareware fee, I may be inspired to start to work on a new batch of savers. Many thanks to those of you who have already registered

your copies. For those of you who have registered by sending in the $5.00 fee, please consider version 1.1 of the savers a free update. If you need to have me send you a copy of the savers on a disk, please send $15.00 (U.S.) to the above address.

For those of you interested licensing a number of copies of the savers, please look at the site license document (SITELIC.WRI) which accompanies these savers. Simply fill in the blanks and send a check for the appropriate amount to the above address. Your canceled check serves as proof of your license.

Please let me know of any suggestions or problems with these screen savers. You can reach me at the above address, or via mail to my CIS account [72611,620] or by phone at (612) 825-5436.

Credits
Thanks to Benjamin Hertzel of Minneapolis for the Fun Fish Art in Fishes. Norton Desktop For Windows® is a registered trademark of Symantec Corporation. After Dark® is a registered trademark of Berkeley Systems, Inc.

Distribution
Feel free to distribute this saver collection to other Windows 3.1 users and encourage them to register with their $5.00 shareware fee. If you make this collection available via mass distribution, you must distribute the self extracting archive file SAVERS.EXE with this write file intact, and you may not charge more than a nominal distribution fee of $5.00.

Thanks,

Gordon Harris
