CuneiForm
for
Microsoft Word

To run CuneiForm under Microsoft Word for Windows you should first
 install '*CuneiForm*' command double-clicking on the "Install" button below.
When prompted to "Save global glossary and command changes", click on **Yes**.

To **use** the new *CuneiForm* command, follow these steps:
1. Place your cursor at the point in your text where you want the recognized document
      to be inserted.
2. Choose *CuneiForm* from the File menu.
3. After recognition and verification of each page you'll be prompted to
             "Include recognition results to output document".
    If you click on **Yes** the recognized page will be appended to output document.
4..Close or minimize CuneiForm's window if you want to return to Word for Windows.
     Recognized text appears in your Word for Windows document.
