

Game Fanatic Cheats v2.0 Release Notes

<http://www.xmission.com/~patricka/index.html>

ADDing, DELETING, PRINTing DATA

Run the cheats.hlp program, or simply press F1 when the program is loaded for detailed instructions.

Error Message: Share Not Installed

If you are using Windows 3.0 or 3.1 you need to put this line in your autoexec.bat file:
SHARE.EXE /L:500

Import

Remove Duplicate Data

If you accidentally import the same database twice or more then you can select this option to remove the duplicate data.

Edit

Clear or (Clear Button)

Simply, clears the cheat data field so that the user does not need to do it manually when adding new cheat data.

Utilities

Compact Data

This option cleans the database of deleted information, thus most likely leaving the cheats.mdb data file smaller. This option will also increase the performance of searches.

Repair Data

If power outage occurs during use of GFC v1.0 or other computer resets occur during program use, you may need to run this option. Symptoms include the Compact Data option not working properly, or other data problems.

Special thanks to David Limoges for the his data update.
