General
* Construction *

Base : New level from scratch (with my bare hands!). This file took the better part of two weeks to complete. Again, the texture alignment took the longest time (it has to be right!).

Editor(s) used : DeeP/HeeP - Excellent Heretic/Doom editors - I have conquered the beast!
WinTex/DeuTex - Excellent WAD compiler. The best freeware \$ can buy!
RMB - Made this WAD 88 % more efficient. (Use this program, folks!)
PaintShop v.3 - Great shareware graphics program. Heretic perfect.

Known Bugs : Absolutely, positively NO problems with this file. W.H. checks out 100% in the HeeP checks (try that some time for kicks).

* Where to get this WAD *

America Online in the PC Games Forum.

Software Search - "Heretic Reid"

This will hit the jackpot for quality WAD files.

Please be sure to check out "Palace of Malice" while you're there.
That is also a classic Gothic MIDI WAD file for Heretic - enjoy the best.

Thanks for playing and I'll see you in C-Space...
