

Plot files *.gra

Provided here is a brief description of the '.gra' plot files available in this folder. These plot files display the colors, symbols and fonts shown in the graphical PDF files on the cdrom. Plot files were created for an electrostatic Versatec plotter using color shadeset Ver256.shd, available in the Export folder. Plot files with names ending in 'hp' have been made using the same 'Amls' but with shadeset 'versatec.shd' to allow the correct color representation for Hewlett-Packard plotters. These files, particularly those at 1:100,000 scale, represent plots to be generated on a 44 inch plotter.

Central	Versatec plot of the geology of central Puerto Rico at 1:100,000
Centralhp	HP plot of the geology of central Puerto Rico at 1:100,000
East	Versatec plot of the geology of eastern Puerto Rico at 1:100,000
Easthp	HP plot of the geology of eastern Puerto Rico at 1:100,000
Faultintrhp	HP plot of faults and intrusive map units of Puerto Rico at 1:200,000
Faultintr	Versatec plot of faults and intrusive map units of Puerto Rico at 1:200,000
Geol1	Versatec plot of the geology of Puerto Rico at 1:100,000
Geol2	Versatec plot of the geology of Puerto Rico at 1:200,000
Gravity	Versatec plot of the Bouguer Gravity of Puerto Rico at 1:100,000
Gravityhp	HP plot of the Bouguer gravity of Puerto Rico at 1:100,000
Legendgeol	Versatec plot of a legend of 151 geologic map units with unique colors and/or patterns grouped by 12 geologic terranes
Legendgeolhp	HP plot of a legend of 151 geologic map units with unique colors and/or patterns grouped by 12 geologic terranes
Legendprov	Versatec plot of a legend of 12 geologic terranes shown on the terrane map
Legendprovhp	HP plot of a legend of 12 geologic terranes shown on the terrane map
Leggeolterr	Versatec plot of a legend of 151 geologic map units grouped by 12 geologic terranes colored by 12 terranes
Leggeolterrh	HP plot of a legend of 151 geologic map units grouped by 12 geologic terranes colored by 12 terranes
Magnetics	Versatec plot of the magnetics of Puerto Rico at 1:100,000
Magneticshp	HP plot of the magnetics of Puerto Rico at 1:100,000
Metallic	Versatec plot of metallic mineral occurrences of Puerto Rico at 1:100,000
Mona	Versatec plot of the geology of Mona at 1:100,000
Monahp	HP plot of the geology of Mona at 1:100,000
Nonmetallic	Versatec plot of nonmetallic mineral occurrences of Puerto Rico at 1:100,000
Permau	Versatec plot of selected permissive terranes of Puerto Rico at 1:100,000
Permauhp	HP plot of selected permissive terranes of Puerto Rico at 1:100,000
Permskarn	Versatec plot of selected permissive terranes of Puerto Rico at 1:100,000
Permskarnhp	HP plot of selected permissive terranes of Puerto Rico at 1:100,000
Strat	Versatec plot of a stratigraphic correlation chart of 151 geologic map units with unique colors and/or patterns
Strathp	HP plot of a stratigraphic correlation chart of 151 geologic map units with unique colors and/or patterns
Stratprov	Versatec plot of a stratigraphic correlation chart of 151 geologic map units colored by 12 terranes
Stratprovh	HP plot of a stratigraphic correlation chart of 151 geologic map units colored by 12 terranes
Terranes	Versatec plot of geologic terranes of Puerto Rico at 1:100,000
Terraneshp	HP plot of the geologic terranes of Puerto Rico at 1:100,000
Vieques	Versatec plot of the geology of Vieques and Culebra at 1:100,000
Viequeshp	HP plot of the geology of Vieques and Culebra at 1:100,000
West	Versatec plot of the geology of western Puerto Rico at 1:100,000
Westhp	HP plot of the geology of western Puerto Rico at 1:100,000
