

AML files *.aml

Provided here is a brief description of the 'aml' files used to generate the plot '.gra' files contained within the PLOTS folder and the appropriate '.E00' files contained within the EXPORT folder. These 'amls' are presented here as Word 97 and Ascii text files which can be viewed through any Ascii viewer or word processor.

Central	Produces a 1:100,000 scale map of central Puerto Rico containing geology and faults
East	Produces a 1:100,000 scale map of eastern Puerto Rico containing geology and faults
Faultintr	Produces a 1:200,000 scale map of Puerto Rico containing faults and intrusive map units
Geol1	Produces a 1:100,000 scale map of Puerto Rico containing geology and faults
Geol2	Produces a 1:200,000 scale map of Puerto Rico containing geology and faults
Gravity	Produces a 1:200,000 scale map of Puerto Rico showing Bouguer gravity and stations
Legendgeol	Produces a legend of 151 geologic map units with unique colors and/or patterns grouped by geology and age into 12 geologic terranes
Legendprov	Produces a legend of 12 geologic terranes shown on the terrane map
Leggeolterr	Produces a legend of 151 geologic map units grouped and colored by 12 geologic terranes
Magnetics	Produces a 1:200,000 scale composite magnetic map of Puerto Rico compiled from individual aeromagnetic surveys
Metallic	Produces a 1:200,000 scale map of Puerto Rico showing metallic mineral occurrences by deposit type and unique site identification number
Mona	Produces a 1:100,000 scale map of Isla de Mona containing geology and faults
Nonmetallic	Produces a 1:200,000 scale map of Puerto Rico showing nonmetallic mineral occurrences by deposit type and unique site identification number
Permau	Produces a 1:200,000 scale map of Puerto Rico showing permissive terranes for selected mineral deposit types
Permskarn	Produces a 1:200,000 scale map of Puerto Rico showing permissive terranes for selected mineral deposit types
Strat	Produces a stratigraphic correlation chart of 151 geologic map units with unique colors and/or patterns
Stratprov	Produces a stratigraphic correlation chart of 151 geologic map units colored by 12 geologic terranes
Terranes	Produces a 1:200,000 scale map of Puerto Rico with 151 geologic map units colored by 12 geologic terranes
Vieques	Produces a 1:100,000 scale map of Vieques and Culebra containing geology and faults
West	Produces a 1:100,000 scale map of western Puerto Rico containing geology and faults
