About this patch...

This patch cannot work properly while virus detection software is running.   Please make sure that you have disabled any virus detectors before applying the patch.

This patch adds 'dctb' resources to your PM5.0 RSRC file, so that when using System Update 3.0, you can see the nice small color icons in PageMaker's Open, Save, and Place dialog windows. However, please be advised that IS NOT an official Aldus release. Use this entirely at your own risk!   To be safe, make update on a copy of PM5.0 RSRC first.

This patch application was made with ResCompare, a free resource comparison and patch generation utility. ResCompare can be FTP'ed from most Macintosh archive sites. Send e-mail inquiries regarding ResCompare to Michael_Hecht@mac.sas.com.
