

About this updater...

This updater will update a copy of the FullWrite Linguistics extension from version 2.0 to version 2.0.2. FullWrite 2.0.2 fixes a number of user-reported problems. Details are included in the accompanying "FullWrite 2 Change History" document. We recommend that all users update to FullWrite 2.0.2.

This updater cannot work properly while virus detection software is running. Please make sure that you have disabled any virus detectors before using this updater. Don't forget to re-enable your virus detectors afterwards.

This Updater is © 1995 Akimbo Systems Inc.

The items included in this package are not freeware or shareware. Permission to use the software is granted to registered FullWrite users only.

Permission to distribute the software is granted to:

- Anyone who redistributes the software with no charge of any kind. No charges may be made for shipping and handling.
- Online services, provided that no charge in excess of standard access charges is applied.
- Non-profit user groups, who may charge a nominal disk copying charge.

Any party distributing the software must distribute this package in its entirety and without modifications of any kind. Distribution under any other conditions without the express written permission of Akimbo Systems Inc. is prohibited.

This updater was made with ResCompare, a free resource comparison and patch generation utility. ResCompare can be FTP'ed from most Macintosh archive sites. Send e-mail inquiries regarding ResCompare to Michael_Hecht@mac.sas.com.
