CONTACTING ME!

1.2 Information

10,000 is a dice game, written exclusively for DLG. The object of ←
 the game
 is to get 10,000 points first. This is achieved by rolling 6 dice, and
 hopefully getting some points from either 1's, 5's, or any group of 3 dice
 with the same number.

This game has been tested for almost 1 year on
 The Fly By Night BBS
 , and I
 have squashed all known bugs (hopefully). So, if you see anything you think
 is wrong, let me know!

Although this game is
 Shareware
 , it is FULLY playable for 5 people. Except
 that the benefits of winning the game aren't there, and the winning scores
 aren't saved.

In this archive is a program to put in your Login.DLGBatch file that will show the status of the current game to users when they log in. In various games that I've been testing, I've noticed that a LOT more users will play the game if this program is running. So, it's up to you, but it makes the game more fun if you have lots of people playing! :)

1.3 Registration

This game is Shareware, and the registration is only \$5. If you ←
like the
game, and think I deserve \$5, send me some money. In return I'll send you a keyfile that will enable high scores to be saved. It will also give the winner of each game unlimited download credits ONLY while that person remains the winner. After they lose, they'll be returned to their original file status.

If you register before December 31st, 1994, you'll be able to register a new game I'm working on, DLG Video Poker, for only \$5 more. Otherwise, it'll cost you \$10 when it comes out! This game can be previewed on either

The Matrix
or
The Fly By Night
BBS's.

Send \$5 and the information below to me at the following address:

Steve Herring
12617 SE Boise
Portland, OR 97236

You have three choices for you'd like to receive the keyfile for 10,000.

- 1) Internet UUEncoded E-Mail
- 2) You can download it from
Fly By Night
or
The Matrix
- 3) You can receive it on a disk from me in the mail.

If you opt for choice #3, you'll need to include a blank disk, and enough postage to get the disk back to you.

I'll need the following information:

DLG SYSOP NAME:

DLG BBS SERIAL NUMBER: (Can be seen when logging on BBS) DLG

BBS NAME:

DLG BBS PHONE NUMBER:

WHERE YOU OBTAINED THIS PROGRAM:

HOW YOU'D LIKE TO GET YOUR KEYFILE:

That's it. If you have any suggestions comments, I'd love to hear from you!
 Hit this button for contact info ->
 CONTACT

1.4 Installation Info

The installation of the game is simple...follow the 8 steps below, ←
 and you'll
 be set!

- 1) Make a directory in your DOORS: directory called Dice
- 2) Make a directory in your DOORS: directory called GameData
- 3) Copy 10000 to the DOORS:Dice Directory
- 4) Copy TopDice to the DOORS:Dice Directory
- 5) Edit your DLG.start (located in s:) file to include the following line:
 ASSIGN GameData: Doors:GameData
- 6) Edit your Login.DLGBatch (located in DLGConfig:Batch) file to include:
 DOORS:Dice/TopDice
- 7) Add a menu item and set it up to look like the following:

[1] Letter:	1
[2] Executable: (path/name)	DOORS:DICE/10000 "%NAME" 5
[4] Description:	10,000 dice game!
[5] Type:	Executable
[6] Help File:	DOORS/1
[7] Lower level:	5
[8] Upper level:	255
[9] Hidden:	NO
[10] Load type:	OVERLAY
[11] Ask user if sure:	NO
[12] Pend messages:	YES
[13] Cli mode:	NO
[14] Pause on completion:	NO
[15] Log value:	200
[16] Activity string:	Playing 10,000
[17] Priority:	DEFAULT
[18] Edit help file	
- 8) You're done!

===== Here's a description of the command line for 10000:

The first entry is "%NAME" which give 10,000 the user's name and allows the program to get other information from DLG.

The second entry is 5 which is the number of turns per day. This is the recommended setting, and should make a game last about 4-6 days. You can change it if you want, but I don't recommend it! :)

=====

The GameData directory and assign are done for various reasons, but they won't be apparent until a later date. Namely when you run another game of mine... just wait, all the data will go to ONE directory.

=====

This game makes use of the TelePro Technologies include files, and those are used without specific permission from TPT.

=====

I'll skip the usual legal crap, but let it suffice to say, I own and hold the copyright on this game! :) It is

Shareware
, and that is all.

I hope you enjoy the game, and have fun playing!

1.5 The Fly By Night

The Fly By Night BBS is a GREAT DLG BBS located in Beaverton, OR. On this BBS, you'll find all the programs/games that I'm currently working on. This is also the first DLG BBS that I know of to have the majority of the menus converted to RIP graphics.

All long distance callers will get unlimited download credits, and 60 minutes a day. If you'd like to check out the latest and greatest in online games, give it a call at (503) 245-6156. Leave a note to me, and I'll make sure your account is validated ASAP! :)

1.6 The Matrix BBS

The Matrix is the second DLG BBS in the Portland area. If you'd like to see another great DLG BBS with Internet Mail, and UseNet, give it a call at (503) 590-5516. All long distance callers get unlimited download credits and 60 minutes a day. You'll also find some interesting utilities online by Anthony Fiarito (also known as Subhuman). Give it a call, and leave me message! You'll be glad you did!

1.7 Contacting Me!

I can be reached via Internet E-Mail at:

mhatter@teleport.com <- FASTEST method... :)
or
Steve_Herring@matrix.rain.com

Or US Mail:

Steve Herring
12617 SE Boise
Portland, OR 97236

Or online:

The Fly By Night BBS (503) 245-6156
The Matrix BBS (503) 590-5516
