

## How can you be sure you look like a tourist when in Hawai'i?

- √ No matter how hot it is, always wear black shoes with black socks when you wear shorts. And always have your shirt tucked in.
- √ Always call the mainland the “States,” and then try and figure out which country Hawai'i is in.
- √ Rent a convertible, drive it very slowly, and always look everywhere except at the road.
- √ Speak Spanish when you don't understand the local dialect.
- √ Mispronounce all the Hawaiian words, then give up, thinking they all sound the same anyway.
- √ While at the north shore of any island in the middle of summer, stop and ask where the big winter waves are.
- √ Before drinking from a water fountain, ask if the water should be boiled first.
- √ When windsurfing in the middle of summer, when the water is well over 85 degrees, always wear a full-length wetsuit and hood.
- √ Above all, have fun!

Aloha!
