

# **Architect**

**JAMES T. ATHENAKIS**

**20 Wilbur Way • Parsons, Vermont 09876 • (123) 456-7890**

## **OBJECTIVE**

To associate with national architectural firm specializing in the design and construction of commercial buildings that fit ethos of the community.

## **EXPERIENCE**

**Supervising Architect**, GREEN LAKES CORPORATION, Boston, Massachusetts, 1990 to present

Builders of multistory office buildings, primarily for banks, savings and loan associations, and public utilities. Coordinate environmental reports with engineers on local, state, and federal regulations.

Confer with clients in all parts of continental United States, Puerto Rico, Alaska, and Hawaii and with municipal planning boards and recommend designs that meet requirements of clients, planners, zoning laws, and building codes; develop final plans with assistance of planning architects and staff engineers; and oversee construction through staff of five assisting architects. (Certified PE 1988 Massachusetts)

Examine detail drawings and calculations from consulting engineers in the field. Supervise firms PublicFAX in sending building information to architects worldwide. Skills in Ventura desktop publishing.

**Staff Architect**, TRAVERS CONSTRUCTION COMPANY, Cleveland, Ohio, 1984 to 1990

Builders of supermarkets, housing projects, and commercial buildings.

Served as liaison architect between Travers management and firms of designing architects and consulting engineers, translating ideas of clients, officials, company management, and engineers into feasible design. Considerable planning and replanning of interior details, but main emphasis on exterior design.

## **EDUCATION**

**Bachelor of Architecture** (five-year program), *SCHOOL OF ARCHITECTURE, GREEN MOUNTAIN UNIVERSITY*, Montpelier, Vermont, 1975 to 1980

## **MILITARY**

**Architect**, CORPS OF ENGINEERS, UNITED STATES ARMY (CAPTAIN), 1980 to 1984

Trained in structural engineering and military building design. Commended (Legion of Merit, Chevalier) for design of officers' club, which has been widely adopted at army posts in United States.
