Installation

Create a temporary folder and unzip the distribution zip file to this directory.

Click on the '**Start**' button on the Windows Task Bar to open the Start Menu.

From the Start Menu click on the '**Run**' menu item to open the '**Run**' dialog box.

Click on the '**Browse**' button to open the '**Browse**' dialog box. Select the drive and directory that contains the **AccuTrans 3D** installation files.

Select the Setup.exe file and click on the '**Open**' button.

In the '**Run**' dialog box click on the '**OK**' button.

Follow the on-screen prompts to complete the installation.

After installation is complete delete the temporary folder and its contents.

Note:

When the installation starts a '**Setup**' dialog box is opened and the ***Installshield Wizard*** is loaded. A problem can occur where the program operation stops when the file has only been 40% loaded. If this happens press the **CTRL + ALT + DEL** keys. After a new dialog box opens select the '**Setup**' program and then press the '**End Task**' button. Now try to install the program again. If trouble persists try the installation immediately after rebooting the computer.

Security

The program has a security module that allows you to examine a fully working version of **AccuTrans 3D** for one trial period. This trial period lasts for 30 days or 120 runs, whichever occurs first. The number of runs available decreases by 4 runs per day. At the end of the trial period or when the security module detects a security violation the file save module will be disabled. Please read the security section in the main help file, **at3d.hlp**.

Each installation of the program creates a unique serial number. Send this serial number and the license fee to **MicroMouse Productions**. You will be sent a password which will activate all features of the program.

Comments

Please email all comments on the program whether positive or negative to **MicroMouse Productions** at micromouse@cableregina.com.

Even if you decide to not pay the license fee your comments would be appreciated.

Pricing

The price you pay for software is divided into three parts: retail, distributor and manufacturer. By ordering direct from **MicroMouse Productions** you pay only the manufacturer's component.

As everyone was a student at some time, there is no special student's price and this was taken into consideration when setting the price.

Regular Price (License Fee)

US \$ 99.00 (in United States currency)

Special Introductory Price (License Fee)
