### 1.2 Introduction

What is it for?

This has been made primarily for Finnish users.

The Poem generates nice random poems (small stories) for screen.

ATTENTION! You need KickStart 2.04 or higher.

### 1.3 Word-File

Each five group contains:

Adjective, substantive, verb, adverb and object.

Look at Words.Txt <- Sorry, it is for Finnish users :)

If someone writes english words (I am too lazy), please

[mail file](#) to me and I publish it at the next release.
