The New .EXE Header

Offset	Contents
0	'N'
1	'E'
2	Linker major version
3	Linker minor version
4	Entry table offset
6	Entry table length
8	32-bit CRC
0C	Module flags
0E	DGROUP segment number
10	Size of initial local heap
12	Size of initial stack
14	Starting IP
16	Starting segment number
18	Starting SP
1A	Segment number of stack
1C	Entries in segment table
1E	Entries in module reference table
20	Length of nonresident names table
22	Offset of segment table
24	Offset of resource table
26	Offset of resident names table
28	Offset of module reference table
2A	Offset of imported names table
2C	Offset of nonresident names table
30	Number of movable entry points
32	Size of file alignment unit
34	Number of resource table entries
36	Target operating system
37-3F	Reserved
