

Grainy 2

A new powerful set of paper grains for PainterTM or related products such as PainterTM 3D or DetailerTM.

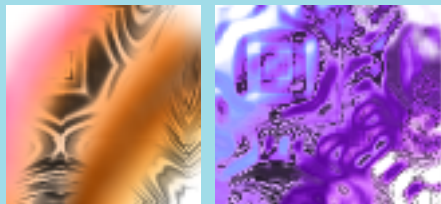

400 Grains in all. Intense paper grains. Subtle paper grains. Grains in different styles such as circular and bumpy grains or star based grains. Each grain is based on a tile of 200 x 200.

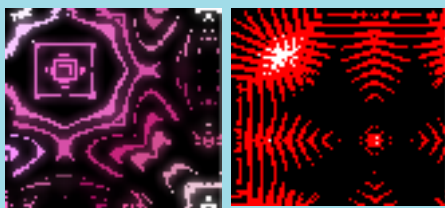

Use the grains in brush strokes to add additional textures to your brushes. Or use in some of the new plugin brushes or impasto effects in version 6.

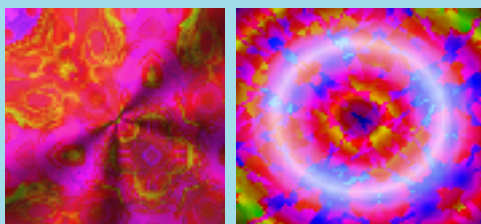

Or use as a glass distortion or displacement to create some truly unique images.

Or apply as a texture or screen or colourful overlay to an image to give your image a new surface.

Or use as source for patterns or custom tiles or as a source for nozzles.

Create truly incredible psychedelic colour shifts, instant summer of love.
