

DiskTrak Ver. 2.9 File List

Most of the files on the enclosed diskette are compressed and cannot be installed directly. If you want to uncompress the files yourself you can use the DOS program EXPAND.EXE that was placed in your \WINDOWS directory when you initially installed Windows.

To install a compressed file manually, go to the DOS prompt, make your Windows directory the default (by entering the command **cd\windows**) and enter the following command:

expand a:name1.xx_ c:\disktrk29\name2.xxx

Here name1.xx_ is the compressed name of the file (see following list) and name2.xxx is its expanded name. Note that this example assumes your DiskTrak installation diskette in in Drive A: and your hard disk directory to hold DiskTrak is C:\DSKTRK29. For example, the following command would expand and install the DISKTRKW.CFG file:

expand a:disktrkw.cf_ c:\disktrk29\disktrkw.cfg

Here's a list of the files on the DiskTrak for Windows installation diskette and where they get installed. This documentation file uses the default name of \DSKTRK29 for the directory to contain DiskTrak for Windows, but you can specify any directory name you like during the installation process.

Compressed Name	Uncompressed Name	Description	Final Location
	SETUP.EXE	Displays INSTINFO.TXT; Reads APPSETUP.INF; uncompresses and copies files to appropriate directories	Stays on floppy Stays on floppy
	APPSETUP.INF	Installation script for SETUP.EXE	Stays on floppy
	CTL3D.DLL	3D buttons etc. for SETUP.EXE	Stays on floppy
	INSTINFO.TXT	Text file displayed by SETUP.EXE	Stays on floppy
	FILES.WRI	This file	\DSKTRK29
DISKTRKW.EX_	DISKTRKW.EXE	The DiskTrak for Windows program	\DSKTRK29
DISKTRKW.CF_	DISKTRKW.CFG	The DiskTrak for Windows configuration file	\DSKTRK29
DISKTRKW.WR_	DISKTRKW.WRI	The DiskTrak for Windows documentation file	\DSKTRK29
DISKTRKW.HL_	DISKTRKW.HLP	The DiskTrak for Windows Help file	\DSKTRK29
VBRUN300.DL_	VBRUN300.DLL	The Visual Basic Ver. 3.00 run time library	WINDOWS\SYSTEM
REGISTER.TX_	REGISTER.TXT	An ASCII text DiskTrak registration form (for your friends)	\DSKTRK29
SAMPLE.DT_	SAMPLE.DTW	A sample DiskTrak database	\DSKTRK29
CSSPIN.VB_	CSSPIN.VBX	Creates the Print Preview page Spin Buttons	WINDOWS\SYSTEM
THREED.VB_	THREED.VBX	Creates DiskTrak's 3-D buttons and list boxes	WINDOWS\SYSTEM
VBADDONS.DL_	VBADDONS.DLL	Provides needed functions Microsoft left out of Visual Basic (get disk free space, label disk)	WINDOWS\SYSTEM
VSVIEW.VB_	VSVIEW.VBX	Creates the Print Preview views & printed reports	WINDOWS\SYSTEM
CSVLIST.VB_	CSVLIST.VBX	Displays data in the Screen Report window	WINDOWS\SYSTEM
