

This is Version 4.02, February, 1994, of SunShine.

SunShine is laid out like a pyramid. With the Introduction at the point, leading down to the Table of Contents, which spreads out to the modules (like chapters). The base, and largest part of SunShine, is the glossary.

Printed on 100 percent recycled electrons.

Made in the USA.

For Absolute Beginners: You may begin reading SunShine just like you would a book by flipping through the pages. To do this, put the mouse cursor on the image of the SunShine book, on the left, and click a mouse button (if one mouse button doesn't work, try another one). Don't worry, you can come right back here, if you want to.

For Everybody Else: Select the "SunShine" image on the left to see a Table of Contents.

SunShine Table of Contents

Introduction

Return to the opening display.

Glossary

An alphabetical listing of hypertext definitions.

Latest Lexicon

A lexicon from popular periodicals with the acronyms, slang, jargon, and techspeak they are currently using.

For Absolute Beginners

An informal tutorial introduction on getting started.

The World's Simplest Computer

A tutorial that illustrates things you need to know about how computers work.

The Visible Window

A hypergraphic illustration of the visible parts of a window.

ZipHelp

A reference of the parameters of PKUNZIP. Unzip with power. Registered versions, only.

What's Next?

Helpful information that explains how to get SunShine updates.

ZipHelp is available for registered versions, only. For information on registering, see [What's Next](#).

What's Next?

SunShine is scheduled to be updated frequently. Check the version date. If it is more than one month old, you probably do not have the latest version. Future versions of SunShine will contain corrections and refinements to this version, if needed, and will add the latest lexicon words and acronyms to the glossary. Your registered version will contain material not yet released as Shareware. To obtain the latest registered version of SunShine, send \$39.95 plus \$4.00 shipping and handling to...

...or select Order Form or Credit Card Orders.

What do you get for your order?

A Master Disk
A printed manual
ZipHelp: Unzip With Power
A \$5.00 rebate
A package nice enough to be used as a gift
An Additional Update for only \$10
Public (software) Library offer
Shareware Magazine offer
Product Support
30-day return policy

Return to the Table of Contents.

You will receive a master copy of the newest version of SunShine on a 1.44 meg
3.5-inch high density floppy disk.

You will receive a printed copy of the MANUAL.WRI file.

You will receive a hypertext reference and tutorial on how to use PKUNZIP, the popular compression utility, including its powerful switches and list files.

Write down and send in the name of the vendor, BBS, club, company or person where you received your first copy of SunShine and the version number you have and receive a \$5.00 rebate. If you are ordering by credit card over the phone, you will get an opportunity to do this after your order.

SunShine will be delivered in a nice shrink-wrapped package which is suitable as a gift.

You will be able to buy additional updates of SunShine for only \$10 each for one year. This means that you can send \$10 per month for each update or wait a year and get the newest copy then for only \$10.

When you register SunShine, you will be give information which will allow you to take advantage of the following registration incentives from Public (software) Library. (Do not send money for these items to the author of SunShine.)

33% Off Magazine Subscription: PsL News is a magazine which reviews hundreds of new shareware programs each month. John Dvorak said in PC Magazine: "PsL News pays for itself in software discoveries...". Special subscription price: \$12.

33% Off the Source Book of Free & Low-Cost Software: The Source Book is nearly 1,000 pages of reviews of over 7,000 public domain and shareware files. PC Magazine called it "by far the most thorough and reliable guide to shareware and freeware anywhere." Includes a six-disk set with the text of the book updated through the current month. Special price: \$13.40 + s&h.

For more information about the above products, call 800-2424-PSL or 713-524-6394 for a free sample issue of PsL News.

When you register SunShine, you also get a special offer on a one-year subscription to Shareware Magazine for just \$14.95. The normal price is \$19.95.

You can receive mail or CompuServe support over the first month.

SunShine has a 30-day money back guarantee for returns.

You are authorized to try out SunShine for 30 days on a trial basis. If you continue using it after the trial period, you are required to register it.

Registering SunShine is to your benefit in many ways. You get buzz words which are not in the Shareware version; coupons for discounts on other items; a \$5 rebate; a master disk and printed manual in a nice package; additional updates for a year for only \$10 each; and ZipHelp hypertext help on unzipping files. All this with a 30-day guarantee.

Every effort has been made to maintain accuracy in this version of SunShine and no errors are known to exist. However, if any errors are found, they will be corrected in the registered version.

To register SunShine, see [What's Next](#). This message does **not** appear on registered versions.

To continue without registering, place the mouse cursor anywhere **but** on the words *What's Next* and press a mouse button.
