Upgrade Policy & Pricing

We are tired of having to buy new software every year, and we are sure you are too! So, if we release a revised version of this product within one year of your purchase, we will upgrade you free. Watch the newsletter for upgrade news.

We are sorry, but advances in technology happen so rapidly that we cannot extend this offer past the one year. This is due to the changing nature of our development tools. As features become easier to implement, we will take advantage of that to enhance our products. In any event, as long as we can, we will keep upgrades that are outside the free upgrade period below one-half the recommended manufacturers retail price.

Thank You

INWXICO appreciates your business and we will strive to provide useful, reliable and easy to use software. Our goal is to exceed the expectations of our customers and provide value in all our products. If you feel we are not doing that, call our President, Mr. David J. Ryan at (800) **INWIXCO** .
