

AceCom(tm) version 1.0  
Copyright (C) 1994-1995 MGP Software  
All Rights Reserved

This file provides information for Shareware Distributors and Disk Vendors who wish to distribute the AceCom 1.0 package, including an extract from the license agreement and suggested program descriptions and keywords.

#### Distribution

The complete license agreement is contained in the file LICENSE.TXT.

The following paragraph is an extract from the license agreement regarding the distribution of the Shareware version of AceCom:

You are specifically prohibited from charging, or requesting donations, for any such copies, however made; and from distributing the software and/or documentation with other products (commercial or otherwise) without prior written permission, with one exception:  
--> Disk Vendors approved by the Association of Shareware Professionals  
--> are permitted to redistribute AceCom, subject to the conditions in  
--> this license, without specific written permission.

#### Suggested One Line Program Description:

Modem Communications for Windows with Zmodem, QWK Mail, Scripts.

#### Suggested Keywords:

AceCom Windows ZMODEM MACRO SCRIPT MODEM IEMSI QWK MAIL

#### Suggested Description

AceCom modem communications software combines the convenience of Windows with an appealing user interface. AceCom's Point and click Terminal Screen allows you to interact with BBS software by simply clicking in the screen. Auto Log In Technology can log you in to most BBS and HOST systems. Internal Zmodem, Ymodem, Xmodem and Ascii protocols interface with AceCom's internal File Manager making file transfers quick and easy. Built in file Manager can un archive your compressed downloads into the work directory for an immediate look.

#### Other Information

Requirements: Windows 3.1, 3.11 or Windows for Workgroups. No other programs are required for basic operations.

Registration: \$34.95 (includes shipping) to receive disk and software KEY
