

Financial Freedom (R) Product List

(Current Windows-Based Products Available From M & R Technologies)

Financial Freedom Designer Envelopes is a graphical designing tool which allows you to create envelope and letterhead stationary and then print it on your printer. You can create/print envelopes and letterhead stationary that are comparable to high-priced print shops and put the money you save in your own pocket! It features a drag and drop interface which allows you to place text, lines, pictures and rectangles. It links to Paintbrush for creating and editing images. Also links to Cardfile for importing/management of addresses and text files. A printer capable of printing envelopes and Windows version 3.1 or higher are required. This product was featured by America Online as a "Top Pick" and featured in the Nov. 94 issue of Windows Magazine as "Superior Shareware". Registration is only \$19.95. Shareware file name: FFDELP.ZIP.

Financial Freedom Business Cards works like Designer Envelopes, however, this program creates and prints Business and Rotary (Rolodex) cards. All features have been tailored to allow you to create stunning cards. Business and Rotary cards are a very economical way for you to "advertise" your services. Include the cards in your mailings or distribute at conventions. These are just a few of the ways you can use the business cards to advertise your business. Create your own cards for any occasion and print quantities tailored for your specific need. This program will both save and make you money! Registration is only \$19.95. If you know how to use Designer Envelopes, you already know how to use this program! Shareware file name: FFBCRD.ZIP.

Financial Freedom Labels works like Business Cards, however, this program creates and prints labels. Supports many popular label sizes! Includes a database engine to access names, addresses and other information for printing on your labels. Create mailing, disk and product labels. Anything you would want to print on a label. You can also create new databases for use with this or any other dbase-compatible program. Registration is only \$19.95. Shareware file name: FFLBL.ZIP.

Financial Freedom Graphics Conversion Utility This is a **FREE** utility found on shareware that will convert metafiles and icons into bitmap format for use with any of the above programs! Many popular clipart packages have metafiles and icons. This conversion utility allows you to convert those images for use within your design layouts. This program requires a file called VBRUN300.DLL to be present on your computer. It can be found in most places you find our other programs, as it is a very common shareware file. You can also order the program from us, by sending us a check or money order for \$6.50 to cover the cost of the disk, shipping and handling. Shareware file name: FFGCU.ZIP.

Financial Freedom Billing Manager is a comprehensive accounts receivable and billing system. Supports multiple companies, unlimited customers, three invoice printing formats, report sorting and formatting options, over 10 different reports, works with fax software, supports partial payments, user-defined product, invoice and customer codes, Sales/Inventory Reports and much more! This is a powerful and very easy to use system. Registration is only \$35.00. Requires Windows 3.1 or higher. Shareware file name: FFBMGR.ZIP.

Financial Freedom is a complete money management system for persons who are new to the Windows environment or money-management itself. It is the easiest money-management system around, yet includes many powerful options. Features management of checking and savings accounts, budgets, check printing, loan analysis and amortization, automated account reconciliations, a bill-payment (or special event) reminder utility, a backup option and much more! Registration is only \$15.00. Requires Windows 3.0 or higher. Shareware file name: FFREED.ZIP.

Financial Freedom GOLD is our high-end money management system featuring all of the options of our Financial Freedom program plus, unlimited bank accounts, password protection, speed-button assignments to get to your data quickly, file conversion from our \$15.00 version and so much more. Standard registration is only \$24.95. Requires Windows 3.0 or higher. Shareware file name: FFGOLD.ZIP.
