# Professional Human Translation

Print this individual page or the entire file document by selecting Print from the File menu.

In addition to Word Translator™ software, Translation Experts now offers professional human translation services for documents, manuscripts, manuals and text of any kind. Our expert translators use Word Translator™ to accomplish the first rough translation and then carefully review the text to ensure 100% accuracy. They can translate anything from a one-page letter to extensive manuals. Exact charges vary depending upon the language and length of the document. Our world-wide network of professional translators can translate from and to many different languages including:

<b>FROM:</b>	<b>TO:</b>	<b>FROM:</b>	<b>TO:</b>

Depending upon the specific language and the length of the text, charges will vary, for example, from £ 0.05 - 0.25 per word for foreign languages into English. The minimum charge is £25.00. We prefer that material to be translated be sent to us via e-mail or on 3 1/2-inch, high-density disks in either Word for Windows, WordPerfect for Windows, Lotus AmiPro or pure ASCII text format. Printed documents are also acceptable but will be charged at a slightly higher rate.
